

# John Carter on how the Legendary Lone Ranger series sheds light on the Silver Bullet Mines history

written by InvestorNews | April 11, 2024

In this InvestorNews interview with host Tracy Weslosky, John Carter, CEO and Director of [Silver Bullet Mines Corp.](#) (TSXV: SBMI | OTCQB: SBMCF), delves into the unique origin story of the company and its innovative approach to mining and silver production. Carter recounted a story linking their McMorris Mine to the legendary Lone Ranger series, shedding light on the mine's history. He explained that the author of the Lone Ranger book "actually came out to the McMorris Mine and bought silver directly from the mine, which they used to make silver bullets for promoting the Lone Ranger series." This historical tidbit not only underscores the mine's storied past but also serves as a testament to its long-standing significance in silver production.

Further into the discussion, Carter highlighted SBMI's unconventional strategy towards mining and financial sustainability. With over 40 years of experience, Carter has witnessed the cyclic challenges of the sector, including the need for continuous capital raising and its dilutive effects on shareholders. SBMI's strategy circumvents these issues by reactivating past-producing mines and utilizing existing resources to fund further exploration and development, rather than relying solely on external financing. This model is currently being applied in Arizona and Idaho, with the company already "producing silver" in Arizona and planning to use the

generated revenues to bolster exploration efforts.

Furthermore, the recent strategic business [alliance](#) with Countryman Investments and the appointment of Dave Richardson to SBMI's Advisory Board signal a significant strengthening of the company's financial and operational capabilities.

## About Silver Bullet Mines Corp.

Silver Bullet Mines Corp. (SBMI) is making headway in the gold and silver production industry. SBMI recently revealed a third potential revenue stream through a partnership to process around 900 pounds of high-grade gold concentrate at its Globe, Arizona facility, benefiting from its advanced gravity circuit. Besides this, SBMI's primary operations focus on silver extraction from the Buckeye Silver Mine and silver/gold production at its Washington Mine in Idaho, to be processed at its fully operational mill. The company recently reported promising high-grade silver findings from the Treasure Room and is working on a financing strategy for its operations. An ambitious goal is to stabilize the Treasure Room for deeper exploration. Another highlight was the successful interception of a mineral-rich zone at the Buckeye Mine, known as "Zone1," believed to contain higher-grade silver. The company plans to continue mining this vein and refine the material at its Globe mill. Recent developments position SBMI as a leading player in silver mining, suggesting a bright future for the company and its investors.

## **Demand Driving Silver Prices: The Top 5 Silver Producers Trading on the TSX**

written by InvestorNews | April 11, 2024

The recent surge in silver prices has sparked renewed interest in the precious metal as an investment avenue, particularly amidst a backdrop of economic uncertainty and geopolitical tensions. Despite its traditional correlation with gold, silver has demonstrated an independent trajectory in recent months, outperforming its counterpart and attracting attention from investors seeking diversification and hedging opportunities.

Christopher Ecclestone, an analyst at [Hallgarten & Company](#), sheds light on the dynamics shaping the silver market in a [short](#)

[note](#) he released earlier this morning on [Aya Gold & Silver Inc.](#) (TSX: AYA | OTCQX: AYASF). He notes the intriguing divergence between gold and silver prices, emphasizing the impact of global events such as inflationary pressures and geopolitical conflicts on precious metal markets. Ecclestone's insights underscore the complexity of factors influencing silver's price movements and its potential as an investment asset.

One notable aspect of silver's recent performance is its resilience amid challenging economic conditions. While gold has historically been viewed as the ultimate safe haven asset, silver's versatility and industrial applications have contributed to its appeal as an alternative investment. Ecclestone highlights the role of industrial demand in driving silver prices, suggesting that silver's utility extends beyond its function as a store of value.

Moreover, the [Critical Minerals Institute](#) (CMI) Co-Chair Jack Lifton always tells us that silver is the #1 technology metal, he often references a notable supply-demand imbalance in the silver market. The forecasted increase in global silver supply, coupled with strong demand projections, suggests a potentially favorable environment for silver investors. Ecclestone's observations underscore the significance of supply dynamics in shaping silver's price trajectory and investment outlook. And we are counting down to having John Carter from [Silver Bullet Mines Corp.](#) (TSXV: SBMI | OTCQB: SBMCF) at 9 AM EST, tomorrow – Wednesday, April 10, 2024, from 9-920 AM ([click here to join](#)).

In preparation – we have done our research on the Top 5 silver producers listed on the Canadian markets. Here are the top 5 silver companies listed on the TSX by market capitalization:

**#1: [Pan American Silver Corp.](#) (TSX: PAAS | NYSE: PAAS)**

**Market Cap:** C\$ 9.357 billion

**Latest News Release:** April 8, 2024 – Pan American Silver reports additional high-grade drill results from the La Colorada Skarn project [[Read more](#)]

**About:** Pan American is a leading producer of silver and gold in the Americas, with operations in Canada, Mexico, Peru, Brazil, Bolivia, Chile, and Argentina. They have a strong reputation for sustainability, operational excellence, and financial management. Headquartered in Vancouver, B.C., their shares trade on the NYSE and TSX under “PAAS.”

**#2: [First Majestic Silver Corp.](#) (TSX: FR | NYSE: AG)**

**Market Cap:** C\$ 3.167 billion

**Latest News Release:** April 1, 2024 – First Majestic Announces 2023 Mineral Reserve and Mineral Resource Estimates [[Read more](#)]

**About:** First Majestic is a publicly traded mining company focused on silver and gold production in Mexico and the United States. They own and operate several mines, including San Dimas, Santa Elena, and La Encantada, along with development and exploration assets.

**#3: [Fortuna Silver Mines Inc.](#) (TSX: FVI | NYSE: FSM)**

**Market Cap:** C\$ 1.993 billion

**Latest News Release:** April 8, 2024 – Fortuna reports strong gold equivalent production of 112,543 ounces in the first quarter of 2024 [[Read more](#)]

**About:** Fortuna Silver Mines Inc. is a Canadian precious metals mining company with five operating mines in Argentina, Burkina Faso, Côte d’Ivoire, Mexico, and Peru. They emphasize sustainability, efficient production, environmental protection, and social responsibility.

**#4: [MAG Silver Corp.](#) (TSX: MAG | NYSE American: MAG)**

**Market Cap:** C\$ 1.751 billion

**Latest News Release:** March 27, 2024 – MAG Silver Announces Robust Updated Technical Report for Juanicipio [[Read more](#)]

**About:** MAG Silver Corp. is a Canadian exploration company focused on advancing high-grade precious metals projects in the Americas. Their joint venture interest in the Juanicipio Mine in Mexico positions them as a top-tier primary silver mining company.

**#5: [SilverCrest Metals Inc.](#)** (TSX: SIL | NYSE American: SILV)

**Market Cap:** C\$ 1.497 billion

**Latest News Release:** March 11, 2024 – SilverCrest Reports Fourth Quarter and 2023 Annual Financial Results [[Read more](#)]

**About:** SilverCrest is a Canadian precious metals producer headquartered in Vancouver, BC. Their principal focus is the Las Chispas Operation in Sonora, Mexico, with ongoing initiatives to expand their asset base and operate multiple silver-gold mines in the Americas.

In summary, the recent surge in silver prices highlights the metal's potential as a valuable component of a diversified investment portfolio. Whether through physical ownership, ETFs, mining stocks, or futures contracts, investors have various avenues to participate in the silver market and potentially benefit from its upward trajectory.

[Note from the Published: In this headline photo (L-R): Peter Clausi and John Carter from Silver Bullet Mines Corp. (TSXV: SBMI | OTCQB: SBMCF), with Stephen Burega from Romios Gold Resources Inc. (TSXV: RG | OTCQB: RMI0F). The 15-oz bar was drawn during PDAC, and the winner was Mathieu Stephens from NeoTerrex Minerals Inc. (TSXV: NTX)]

---

# Relief and Renewal: Canada's METC Extension Breathes New Life into Mineral Exploration

written by Tracy Weslosky | April 11, 2024

In a much-anticipated turn of events, the Canadian government [announced](#) on Thursday, March 28th, the extension of the **Mineral Exploration Tax Credit** (METC) through to March 31, 2025. This decision, arriving just in the nick of time, has quelled the rising anxiety within the mining sector regarding the future of flow-through financings.

For weeks leading up to the announcement, speculation and concern have been rampant. A recent story by **InvestorNews** titled [Anxiety Rises on the Future of Flow-Through Financings as METC Deadline Looms, Canadian Government Keeps Quiet](#) highlighted the sector's unease as the March 31, 2024, deadline approached without a word from the federal government. The METC has long been a cornerstone for supporting flow-through share (FTS) pricing for exploration companies, enabling them to raise funds effectively. The lack of confirmation on its renewal posed a significant threat to the cost of capital for these companies,

potentially diluting their growth and exploration activities across Canada.

Peter Clausi, a Director for the [Critical Minerals Institute](#) (CMI), the CEO of [CBLT Inc.](#) (TSXV: CBLT), and a vocal advocate for the mining community, previously expressed deep concern over the government's silence. The uncertainty, he noted, made planning and investment challenging for junior mining issuers. "Without the METC's extension, a great deal of investment would not have been made, to the detriment of everyone in the junior mining company's food chain. The extension of the METC means that the further incentive to invest in junior mining companies with assets in Canada is still there," Clausi elaborated following the announcement. "Many thanks to everyone who spoke to the government, and especially to PDAC who has been a historical leader in this area."

The extension is projected to offer support for mineral exploration investments. While the figure mentioned in the announcement was \$65 million, industry experts deem this to be an exceptionally modest number. "The \$65 million figure seems low compared to the expectations within the industry," Clausi commented, providing an opportunity to share the perceived discrepancy between the government's projections and the industry's expectations.

Despite the last-minute nature of the renewal and the questions surrounding the amount of support provided, the extension has been met with relief. The decision underscores the government's recognition of the mining sector's crucial role in Canada's economy, especially in the sustainable development of natural resources and the promotion of Indigenous economic participation.

Quotes from senior government officials, including The

Honourable Chrystia Freeland and The Honourable Jonathan Wilkinson, affirm the government's commitment to supporting the mining sector. Freeland emphasized the importance of mineral exploration in creating future mining jobs, particularly in northern and remote communities, as part of Canada's transition to a net-zero economy. Wilkinson highlighted mining's historic significance to Canada and the current focus on supporting the exploration of critical minerals crucial for clean technology.

The METC's extension arrives as both a significant relief and a call to action for the mining industry. It not only addresses the immediate financial concerns but also signals the government's ongoing support for mineral exploration. As Canada continues to navigate its economic and environmental goals, the sustained investment in the mining sector through mechanisms like the METC will be pivotal in unlocking the country's vast mineral wealth, creating jobs, and fostering a sustainable future.

InvestorNews recently did an [interview](#) with Jeff Killeen, Director of Policy and Programs at the [Prospectors & Developers Association of Canada](#) (PDAC) who explained how PDAC has played a crucial role in lobbying for the METC's renewal. Their efforts underscore the collaborative spirit required to ensure the mining sector's stability and growth. With the extension now in place, the industry can breathe easier, focusing on the exploration and development that are fundamental to Canada's economic and environmental well-being.

**Peter Clausi Analyzes the METC Extension: Understanding Its Impact on Canada's Mining Industry – Highlights from the Q&A Session:**

**Q: The Federal Government of Canada announced an extension of the 15% mineral exploration tax credit for investors and flow-**

**through shares until March 31, 2025. What does this mean for the industry?**

**Peter Clausi:** This means that the incentive to invest in junior mining companies with assets in Canada is still there without the mineral exploration tax. But a great deal of investment would not have been made, to the detriment of everyone in the junior mining company's food chain, including drillers, prospectors, lawyers, accountants, and most importantly, First Nations. With the METC being extended for at least one year, those persons will continue to benefit from continued investments.

**Q: Why did the government wait until the last minute to announce the METC extension, and why only for one year?**

**Peter Clausi:** I blame Adam Smith and his invisible hand. I think the liberal government was using the Tax Act as a tool of social policy, which they ever right to...But I think the law of unintended consequences... would have been that those companies would not have seen investment and that's not healthy for the Canadian mining ecosystem.

**Q: How does this extension impact sectors not considered critical minerals?**

**Peter Clausi:** Anything that's not on the critical minerals list would have been impacted.

**Q: The extension is projected to offer \$65 million in support for mineral exploration investments. Is this consistent with your understanding of what's needed?**

**Peter Clausi:** It is. I would expect that \$65 million number to be much larger, and that much larger level of support is what's needed for the non-critical mineral exploration company.

**Q: Can you comment on the significance of quotes from Chrystia Freeland and Jonathan Wilkinson in this particular news release?**

**Peter Clausi:** It shows how seriously the Liberal government finally took this issue. And when they realized the unintended consequences of not extending the METC, senior officials in the government took action to extend the METC.

## **CBLT'S Peter Clausi on de-risking exploration projects with M&A**

written by InvestorNews | April 11, 2024

In a comprehensive interview with InvestorNews host Tracy Weslosky, Peter Clausi, President, CEO & Director of [CBLT Inc.](#) (TSXV: CBLT), delved into the company's strategic focus on mergers and acquisitions (M&A) and asset development across the mineral exploration sector. Clausi articulated CBLT's pre-

emptive strategy to bolster its financial position by liquidating assets ahead of anticipated market downturns, ensuring the company remains financially robust with “cash in the bank.” This prudent financial management, according to Clausi, positions CBLT advantageously during both prosperous and challenging times, enabling continued exploration and project development activities.

Clausi emphasized CBLT’s unique approach to growth, stating, “In our belief, you can make more money with the pen than with the drill bit at less risk,” highlighting the company’s success in maximizing value through strategic M&A activities rather than solely relying on direct exploration. This philosophy has allowed CBLT to maintain a lean share structure over 15 years, with only 75 million shares issued, a testament to their efficient capital management and strategic project acquisitions.

The interview further shed light on CBLT’s diverse portfolio, ranging from gold and cobalt to lithium and copper properties across Canada, each selected for its potential to address future market demands. Notably, Clausi spotlighted the acquisition and planned development of the historic Falcon Gold Mine in Sudbury, illustrating CBLT’s knack for identifying and revitalizing underexplored or forgotten assets. This property, alongside others such as Michaela in British Columbia and a lithium property adjacent to the Tanco Mine in Manitoba, underscores CBLT’s strategic foresight in project selection and development.

Adding to the company’s strategic capabilities, CBLT announced the addition of James R. Atkinson, a geologist with over 40 years of experience, to its board of directors, promising to further bolster its expertise in mineral exploration and project evaluation.

Moreover, Clausi provided insights into the company’s recent

sale of the non-core Ryliejack asset in northern British Columbia, demonstrating CBLT's strategic asset management and focus on optimizing its portfolio for financial and operational efficiency. Throughout the interview, Clausi's narrative was one of strategic foresight, prudent financial management, and a deep understanding of the mineral exploration sector. His perspective on the critical role of copper as a technology metal, over other more transient battery metals, reflected a long-term strategic outlook on commodity investment, emphasizing the importance of adaptability and foresight in the rapidly evolving resource sector. Clausi's articulate discussion highlighted CBLT's commitment to strategic growth, value creation, and operational excellence in the exploration industry.

## **About CBLT Inc.**

CBLT Inc. (TSXV: CBLT) has an impressive portfolio of eight (8) active exploration projects, and one (1) passive investment across Canada. In Manitoba, they fully own the Shatford Lake Project, focusing on Lithium, which was acquired in 2021. In Sudbury, Ontario, they possess both Copper Prince and the former gold producing Falcon Gold Project, acquired in 2016 and 2023 respectively. These two projects are significant as they jointly cover 100% of the Garson Fault, with resources including Cobalt, Copper, and Gold. Ontario is also home to their Big Duck Lake Project, acquired in 2019, which is rich in Copper, Gold, and Zinc. Similarly, in Newfoundland, the Burnt Pond Project, also acquired in 2019, targets Copper and Zinc resources. Their Geneva Lake Project in Sudbury, focusing on Lead and Zinc, has been under their ownership since 2012. Lastly, the Mikayla

Project in British Columbia, acquired in 2012, explores Copper, Gold, and Silver, though no exploration activities were reported for it in fiscal 2023. With regards to passive investments, CBLT acquired title to the Chilton Cobalt property in Quebec in 2017, which was later optioned to PowerStone Metals Corp.

**Edward Gosselin on the potential of Kobo Resources as a pivotal player in the gold-**

# rich grounds of West Africa

written by InvestorNews | April 11, 2024

In a comprehensive discussion at PDAC 2024, Edward Gosselin, CEO, Director, and Corporate Secretary of [Kobo Resources Inc.](#) (TSXV: KRI), shed light on the company's strategic objectives and its recent advancements in gold exploration within Côte d'Ivoire, one of West Africa's most prolific and developing gold districts, hosting several multi-million-ounce gold mines. Gosselin elucidated the company's primary mission of showcasing their venture to prospective investors and operating companies, aiming to augment their capital for an expanded drill program. Emphasizing the concept of "closeology play," Gosselin stated, "We're less than 9 km away from one of the region's largest gold mines with established processing facilities...it's a no-brainer." This strategic proximity underscores Kobo's leverage in logistics and geological similarity, making it an attractive Brownfield project.

Kobo Resources Inc., with its 100%-owned Kossou Gold Project located near the capital city of Yamoussoukro and adjacent to the substantial Yaouré mine operated by [Perseus Mining Limited](#) (ASX: PRU | TSX: PRU), is poised for growth. The company's focus on the Kossou Gold Project aims to delineate the potential size and scale of the discovery within a 9+ km strike length of highly prospective gold in soil geochemical anomalies. The completion of approximately 6,000 meters of RC drilling and 5,400 meters of trenching in 2023, with plans for further exploration in 2024, highlights significant gold mineralization within a potentially large mesothermal gold system. Christopher Ecclestone underscores the project's strategic positioning in another [InvestorNews interview](#) with: "If Kobo strikes gold in commercial quantities, they're going to be sort of a natural prey for Perseus to move upon to provide Perseus with extended

mine life with Yaouré.”

The Kossou Gold Project’s promising initial exploration results and the upcoming Phase 2 Diamond Drilling in March 2024 signal the project’s vast potential. With a keen emphasis on rigorous exploration and the allure of significant gold anomalies, Kobo Resources Inc. represents a compelling investment opportunity, underscored by a seasoned leadership team with extensive in-country experience. The company’s strategic location and exploration prowess underscore its potential as a pivotal player in the gold-rich grounds of West Africa.

## **About Kobo Resources Inc.**

Kobo Resources is a growth-focused gold exploration company with a compelling new gold discovery in Côte d’Ivoire, one of West Africa’s most prolific and developing gold districts. The Company’s 100%-owned Kossou Gold Project is located approximately 20 km northwest of the capital city of Yamoussoukro and is directly adjacent to one of the region’s largest gold mines with established processing facilities.

The Company is drilling to unlock the potential size and scale of Kossou within 9+ km strike length of highly prospective gold in soil geochemical anomalies with excellent rock and trench sampling results. The Company completed ~6,000 m of RC drilling and ~5,400 m of trenching in 2023 and is planning on additional drilling and trenching in 2024. Significant gold mineralisation has been identified at three main targets within a 300 m wide, 2+ km long, pervasively altered structural corridor defining a

potentially large mesothermal gold system. Kobo offers investors the exciting combination of high-quality gold prospects led by an experienced leadership team with in-country experience.

**Jack Lifton Sits Down with  
'Bobby' Stewart, the Driving  
Force Behind Geophysx  
Jamaica's Charge into the**

# Global Arena with Critical Minerals

written by InvestorNews | April 11, 2024

During a revealing interview at PDAC 2024 with Jack Lifton of InvestorNews, Robert “Bobby” Stewart, the driving force behind [Geophysx Jamaica Ltd.](#), shared insights into the company’s pioneering exploration efforts and strategic partnerships in Jamaica. Over the past five to six years, Geophysx Jamaica has conducted a comprehensive exploration campaign across the island, identifying significant copper and gold targets and recently announcing a [joint venture](#) with C3 Metals to further develop these findings. This collaboration aims to leverage both entities’ resources and expertise, particularly spotlighting the integration of the past-producing Pennants Gold Mine with the Main Ridge Project to establish the Super Block Project. Stewart highlighted the venture’s potential to unlock untapped mineral wealth, emphasizing the strategic importance of copper and gold in technological advancements and space exploration.

Stewart’s revelation of a substantial rare earths discovery in Jamaica underscores a significant leap forward in the nation’s mineral exploration landscape. Covering about 100 square kilometers, this area exhibits unusually high concentrations of rare earth elements, diverging from the typical geological signatures found in Jamaica’s bauxite-rich regions. This finding positions Jamaica as a potential key player in the global critical minerals supply chain, with Stewart remarking on the indispensable role of copper in electricity transmission and the protective qualities of gold in space exploration technologies. The interview delves into the technical and logistical facets of Geophysx Jamaica’s exploration strategy, including extensive geochemical and geophysical surveys. Stewart also discusses the

company's future plans, hinting at the possibility of public offering and the exploration of downstream processing opportunities in Jamaica to enhance the value of its mineral projects. This conversation with Lifton not only sheds light on Geophysx Jamaica's ambitious exploration endeavors but also highlights the broader implications for Jamaica's role in the global mining industry.

# Silver Bullet Mines' John

# Carter on Processing High-Grade Silver and Redefining Revenue Generation in Junior Mining

written by InvestorNews | April 11, 2024

During the PDAC 2024 event, InvestorNews host Tracy Weslosky engaged in a detailed conversation with John Carter, CEO and Director of [Silver Bullet Mines Corp.](#) (TSXV: SBMI | OTCQB: SBMCF), shedding light on the company's significant strides in the silver industry. Carter revealed the transformation of their Arizona site from a bare landscape to a fully operational 125 metric ton per day processing facility, emphasizing the shift from traditional financing models towards self-sustaining revenue generation. This strategic move aims to minimize shareholder dilution and finance exploration across their expansive 5,000 acres through the revenue generated from their mine and mill operations. Highlighting the innovative approach, Carter stated, "the plan is to be an exploration company but not an exploration company that has to finance to do the exploration. We will finance ourselves by generating revenue from our mine and our Mill."

Further elaborating on the company's unique position and future prospects, Carter pointed out three key reasons why investors should consider Silver Bullet Mines: a protective share structure, revenue generation to fund exploration without the need for external financing, and the leveraging of past mining operations for future success. With an eye towards past-producing mines, the company aims to build upon historical successes to discover and develop new resources. Additionally,

Carter touched upon the broader market dynamics of silver, its industrial applications, and realistic price expectations, suggesting a cautious yet optimistic outlook on silver prices and its implications for SBMI's operations.

In conjunction with the interview, recent news releases from February 2024 underlined SBMI's ongoing production at its mill near Globe, Arizona, and the continuation of operations following compliance with MSHA regulations. The company has been processing high-grade silver from the Buckeye Silver Mine, with promising assay results guiding production targets. Furthermore, SBMI's exploration and production strategy, including the processing of high-grade gold concentrate and the development of silver/gold production at its Washington Mine in Idaho, positions the company for substantial growth and operational expansion. This integrated approach not only underscores SBMI's commitment to leveraging its operational capabilities for sustained growth but also highlights its potential to redefine revenue generation within the junior mining sector.

## **About Silver Bullet Mines Corp.**

Silver Bullet Mines Corp. (SBMI) is making headway in the gold and silver production industry. SBMI recently revealed a third potential revenue stream through a partnership to process around 900 pounds of high-grade gold concentrate at its Globe, Arizona facility, benefiting from its advanced gravity circuit. Besides this, SBMI's primary operations focus on silver extraction from the Buckeye Silver Mine and silver/gold production at its Washington Mine in Idaho, to be processed at its fully

operational mill. The company recently reported promising high-grade silver findings from the Treasure Room and is working on a financing strategy for its operations. An ambitious goal is to stabilize the Treasure Room for deeper exploration. Another highlight was the successful interception of a mineral-rich zone at the Buckeye Mine, known as "Zone1," believed to contain higher-grade silver. The company plans to continue mining this vein and refine the material at its Globe mill. Recent developments position SBMI as a leading player in silver mining, suggesting a bright future for the company and its investors.

# Chris Berlet on the benefit of MineralPrices' real-time pricing information

written by InvestorNews | April 11, 2024

In this interview with Tracy Weslosky during PDAC 2024, Christopher Berlet, President and CIO of [MineralPrices.com](https://MineralPrices.com) discussed the current trends and future directions of the metals market. Christopher deep dives into the intricacies of mineral pricing and the scarcity of reliable sources for such data, underpinning MineralPrices.com mission to fill this gap.

As an industry expert, particularly in managed funds and precious metals like gold, Christopher expressed an optimistic outlook for precious metals, including both gold and silver.

The conversation further expanded into the critical minerals domain, where Christopher discussed the evolving landscape shaped by global policies and the varied critical mineral lists curated by different nations. Christopher expressed a keen interest in scandium and niobium due to their applications in lightweighting. Additionally, he discussed the market trends towards transparency and the beneficial role of electronic platforms in providing comprehensive, real-time pricing information and facilitating responsible sourcing.

## **Stephen Burega on Romios Gold's Recent Strides Forward in High-Grade Copper Exploration in Nevada**

written by InvestorNews | April 11, 2024

In this InvestorNews interview, host Peter Clausi sits down with Stephen Burega, President, CEO, and Director of [Romios Gold Resources Inc.](https://www.romiosgold.com), (TSXV: RG | OTCQB: RMI0F) to discuss the company's latest exploration achievements. Highlighted in a [news release](#) on October 12, 2023, Romios has made significant strides in Nevada by discovering a high-grade copper boulder train at its Kinkaid project within the Walker Lane trend. This discovery, coupled with the identification of possible porphyry-type alterations, led to the staking of sixteen new claims. The exploration uncovered nine mineralized boulders showing copper

values averaging 5.03% Cu and noteworthy gold values, suggesting a sizeable mineralized system just waiting to be fully explored. Under the guidance of John Biczok, VP of Exploration, Romios is poised to further investigate these new and existing claims through detailed mapping and sampling.

The company's exploration strategy, as Burega detailed to Clausi, focuses on leveraging Romios' expertise to tap into underexplored areas, showcasing the efficiency and potential of its Nevada projects. With over 25 targets now identified on the Kinkaid property, every expedition uncovers new potential, underscoring Romios' commitment to cost-effective and impactful exploration. This relentless pursuit of discovery highlights the significant prospects and exciting future that Romios Gold Resources Inc. faces in its quest to unearth valuable copper, gold, and silver resources.

## About Romios Gold Resources Inc.

Romios Gold Resources Inc. is a progressive Canadian mineral exploration company engaged in precious- and base-metal exploration, focused primarily on gold, copper and silver. It has a 100% interest in the Lundmark-Akow Lake Au-Cu property plus 4 additional claim blocks in northwestern Ontario and extensive claim holdings covering several significant porphyry copper-gold prospects in the "Golden Triangle" of British Columbia. Additional interests include the Kinkaid claims in Nevada covering numerous Au-Ag-Cu workings, and two former producers: the Scossa mine property (Nevada) which is a former high-grade gold producer and the La Corne molybdenum mine

property (Quebec). The Company retains an ongoing interest in several properties including a 20% carried interest in five of Honey Badger Mining's claim blocks in the Thunder Bay silver district of northwestern Ontario; a 2% NSR on McEwen Mining's Hislop gold property in Ontario; a 2% NSR on Enduro Metals' Newmont Lake Au-Cu-Ag property in BC, and the Company has signed a definitive agreement with Copperhead Resources Inc. ("Copperhead") whereby Copperhead can acquire a 75% ownership interest in Romios' Red Line Property in BC.

**Exploits      Discovery's      Jeff**

# Swinoga on Securing Competitive Assets in the Newfoundland Gold Region

written by InvestorNews | April 11, 2024

In an engaging interview at PDAC 2024 with Tracy Weslosky of InvestorNews, Jeff Swinoga, the President, CEO, and Director of [Exploits Discovery Corp.](#) (CSE: NFLD | OTCQX: NFLDF), shares insights into the company's strategic positioning and future prospects in the Newfoundland gold sector. Swinoga emphasizes the value of their holdings, stating, "We've got a very strategic claim called Bullseye, and in the last year, there's been 5 gold discoveries just South of our Bullseye property." This remark underscores the significant potential of their assets in a region that's rapidly becoming a hotspot for gold exploration. With a dedicated local team in Gander, NL, Exploits is well-placed to capitalize on the burgeoning gold exploration scene.

The focus of Exploits Discovery Corp.'s exploration strategies and geological interests are crucial to its ambitions, particularly along the Appleton Fault Zone. By following a path similar to industry pioneers, the company's exploration efforts at the Bullseye and the larger Gazebo properties are poised to potentially redefine its prospects. Swinoga detailed the competitive edge and determination that led Exploits to secure these prime locations, showcasing the company's resourcefulness and strategic planning in the high-stakes domain of mineral exploration.

Recent developments at the company, especially the promising results from the expanded till sampling program at the Gazebo South property, highlight the potential for significant gold

mineralization along the Appleton Fault Zone. This advancement solidifies the northward extension of gold zones, contributing to an optimistic outlook for Exploits Discovery Corp. With upcoming assay results from the Bullseye property and the plan for further exploration, Exploits is strategically positioned to explore the geological riches of its claims, marking a potential trajectory for its future in Newfoundland's gold exploration landscape.
