

# Peter Clausi with David Morgan on the rising interest in silver for 2021

In a recent InvestorIntel interview, Peter Clausi speaks with David Morgan of The Morgan Report, about investing in silver, the silver market and the source of the rising demand.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), David went on to say that he is bullish on silver and also commented on the gold to silver ratio. He said, "It is good for looking at long term trends and preview what you might use as an exit strategy." He further added, "Gold has outperformed at this time, but silver is catching up and will continue to outperform."

"Based on our current economic situation globally you should have some physical metal," David commented. "Then you gain leverage by going into mining equities. A lot silver stocks have done quite well."

# **Douglas Hurst on Eclipse Gold's merger with Northern Vertex designed to create a multi asset gold producer**

In a recent InvestorIntel interview, Peter Clausi speaks with Douglas Hurst, Director at Eclipse Gold Mining Corp. (TSXV: EGLD), about Eclipse Gold's at-market merger with Northern Vertex Mining to create a multi asset gold producer focused in the western USA.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Douglas went on to provide details of the merger and explained how the merger creates value for the shareholders supported by production and positive cash-flow from Northern Vertex's Moss Mine and highly capable leadership, operations and exploration teams.

Speaking on the upside potential of the Moss mine, Douglas said, "It is right next to an operating mine." He added, "You think of a kilometer and a half with half a million ounces and 10 kilometers of vein to explore, there is very significant upside here."

## **About Eclipse Gold Mining Corp.**

Eclipse Gold Mining is exploring the district-scale Hercules gold property within Nevada's Walker Lane trend. The Hercules property is located only a one-hour drive from Reno and appears to have all the characteristics of a large, low-sulphidation epithermal gold system. The company brings together a team with a track record of extensive M&A and nine

successful buyouts totaling \$4.6 billion.

### **About Northern Vertex**

Northern Vertex Mining Corp. owns and operates the Moss Mine, currently the largest pure gold and silver mine in Arizona. Focused on low-cost gold and silver production, the company has experience across all areas of operations, mine development, exploration, acquisitions, and financing of mining projects. With operations at the flagship Moss, the company intends to consolidate additional producing and exploration gold assets within the Western US. Through mergers and acquisitions Northern Vertex's corporate goal is to become a mid-tier gold producer.

## **Frank Basa on Canada Silver Cobalt's recent high-grade gold mineralisation and silver vein discovery**

In a recent InvestorIntel interview, Tracy Weslosky speaks with Frank Basa, CEO and Director of Canada Silver Cobalt Works Inc (TSXV: CCW | OTCQB: CCWOF), about the announcement of intersecting high-grade gold mineralisation and discovering a new, additional, high-grade silver vein at the Castle property.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Frank reviews Canada Silver Cobalt's most recent discovery of gold and comments "...we found visible gold. I think nobody else has ever found it in the camp. Silver with the gold will make this deposit quite significant."

In a previous InvestorIntel interview, President & COO Matt Halliday stated that Canada Silver Cobalt has a resource of 7.5 million ounces at over 8000 grams per ton inferred. Commenting on how the new silver vein affects such previous statements, Frank said, "...we have a grade of about 250 ounces per ton in our inferred resource. It is unique, probably the highest grade resource that I am aware of globally."

To watch the full interview, click here

### **About Canada Silver Cobalt Works Inc.**

Canada Silver Cobalt Works released the first-ever resource in the Gowganda Camp and greater Cobalt Camp in May 2020. A total of **7.56 million ounces** of silver in Inferred resources comprising very high-grade silver (**8,582** grams per tonne uncut or **250.2** oz/ton) in 27,400 tonnes of material from two sections (1A and 1B) of the Robinson Zone beginning at a vertical depth of approximately 400 meters. The discovery remains open in all directions (1A and 1B are approximately 800 meters from the east-trending Capitol Mine workings) (mineral resources that are not mineral reserves do not have demonstrated economic viability) (refer to Canada Silver Cobalt Works Press Release May 28, 2020).

Canada Silver Cobalt's flagship Castle mine and 78 sq. km Castle Property feature strong exploration upside for silver, cobalt, nickel, gold and copper in the prolific, past-producing Gowganda high-grade Silver District of Northern Ontario. With underground access at Castle, a pilot plant to produce cobalt-rich gravity concentrates on site, a processing

facility (TTL Laboratories) in the town of Cobalt, and a proprietary hydrometallurgical process known as Re-20X for the creation of technical grade cobalt sulphate as well as nickel-manganese-cobalt (NMC) formulations, Canada Silver Cobalt is strategically positioned to become a Canadian leader in the silver-cobalt space.

## **Frank Basa on Granada Gold's key positioning in Quebec's Cadillac Trend and the 2021 Gold Market**

In a recent InvestorIntel interview, Tracy Weslosky speaks with Frank Basa, Director, President and CEO of Granada Gold Mine Inc. (TSXV: GGM) discusses their key positioning in Quebec's Cadillac Trend, the rising value of gold and how this will translate into the marketplace in 2021.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here](#) to subscribe to the InvestorIntel Channel), Frank responds to Tracy's questions about Matt Bohlsen's article on why they may be 'flying under the investment radar' with, "We are on the Cadillac break, and of course anybody who is on the Cadillac break usually ends up with a multi-million-ounce deposit, which we did get."

Frank goes on to explain changes that will positively affect the economics for Granada Gold, the impact of the gold market on the M&A market and adds **“This is just the beginning of a long bull market for gold, and with our location; our infrastructure – we’re in a great position.”**

### **About Granada Gold Mine Inc.**

Granada Gold Mine Inc. is continuing to develop the Granada Gold Property near Rouyn-Noranda, Quebec. The property includes the former Granada gold mine which produced more than 50,000 ounces of gold at 10 grams per tonne gold in the 1930’s before a fire destroyed the surface buildings. Approximately 120,000 meters of drilling has been completed to date on the property, focused mainly on the extended LONG Bars zone which trends 2 kilometers east west over a potential 5.5 kilometers mineralized structure. The highly prolific Cadillac Trend, the source of 50 million plus ounces of gold production in the past century, cuts right through the north part of the Granada property on a line running from Val-d’Or to Rouyn-Noranda Quebec.

The Company is in possession of all permits required to commence the initial mining phase known as the “Rolling Start”, which allows the company to mine up to 550 tonnes per day, capable of producing up to 675,000 tonnes of ore over a 3-year period of time. Additional information is available at [www.grnadagoldmine.com](http://www.grnadagoldmine.com).

# Quebec Precious Metals Normand Champigny talks about new drill results extending gold strike and thickness at La Pointe Extension

In a new InvestorIntel interview, Peter Clausi speaks with Normand Champigny, CEO and Director of Quebec Precious Metals Corporation (TSXV: QPM | OTCQB: CJCFF) (QPM), about recent results from five additional drill holes from the 19-hole summer and fall diamond drilling program at La Pointe Extension on the Sakami Project in Quebec's Eeyou Istchee James Bay territory.

Mr. Champigny told Peter that he was "pleased to report a significant drill intercept of 42 meters at 1.31 g/t Au at the La Point Extension discovery."

Mr. Champigny explained to Peter how the recent results have now extended the strike length of the mineralized zone over 600 meters on the Extension discovery. "In conjunction with the La Pointe Deposit we now have a 2 kilometer long structure, which is along a very prolific structure that is 13 kilometers long as well."

In this InvestorIntel interview, which can also be viewed on YouTube, Champigny explains that the recently published results are particularly significant because "it continues to define mineralization about twice as thick as we had at La Pointe itself," and with results now received from 10 of the 19 holes from the recent program, "we are very excited to see

the continuity we have observed.”

“This is another step,” he continued, “towards delineating our target of 2 million ounces for a resource estimate.”

## **Peter Clausi on how CBLT has used creative M&As in gold and battery metals to make money for their shareholders**

In a recent InvestorIntel interview, Tracy Weslosky asks Peter Clausi, President, CEO and Director of CBLT Inc. (TSXV: CBLT) to explain what he meant by his line that “a mining company can make more money with a pen than with a drill bit.” He responds on how this works with market cycles and then adds that as a result of their focus on strategic M&A activities that “CBLT has not had to do financing since 2016.” He then goes on to explain how CBLT has found creative M&As to make money for their shareholders.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here](#) to subscribe to the InvestorIntel Channel), Peter went on to say, “Two years ago, CBLT bought a portfolio of assets for little over \$1 million in stock. Northshore gold was one of the assets in the portfolio which

was sold for \$1.45 million.” He also provided an update on the Big Duck Lake gold property on which Peter said “...is analogous to the Moose Lake Porphyry which hosts the Hemlo Gold Camp.” Commenting on the cobalt market Peter said, “If you believe that we are going to greenify the world, if you believe that there is a run on Lithium – then you have to believe that there is a run on cobalt.”

## **Tom Drivas on Romios Gold's well positioned gold, copper and silver projects in North America**

In a recent InvestorIntel interview, Tracy Weslosky speaks with Tom Drivas, President, CEO and Director of Romios Gold Resources Inc. (TSXV: RG) on the M&A formula utilized by Romios targeting gold-copper-silver acquisitions across North America. In this interview Tom highlights a series of projects

including four historic silver prospects in the Thunder Bay Camp in Ontario. They also discuss the gold-copper porphyry exploration potential of Romios in British Columbia's Golden Triangle and the resumption of exploration at Romios Gold's bonanza-grade Scossa Gold Mine Property in Nevada.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Tom said, "The Thunder Bay Project has produced quite a bit of silver in the past. There are a number of mines that have produced silver and one of them was actually the highest producer in the world at the time." He added that Romios has acquired a number of properties around those mines.

Tom also provided an update on the recently undertaken exploration program on the Company's Scossa bonanza-grade gold mine property in Nevada, USA. He said that the Scossa mine produced gold in the 1930s and produced bonanza-grade ores thought to have graded **1,200 oz/t gold**. He added that the ore from the property was so rich that it was stored in a bank vault. He also said that Romios is concentrated on gold, copper and silver and "...for the last 10 years has acquired a large package of properties in the Golden Triangle."

To watch the full interview, click here

### **About Romios Gold Resources Inc.**

Romios Gold Resources Inc., a progressive Canadian mineral exploration company established in 1995, is engaged in precious and base metal exploration primarily focused on gold, silver and copper. It has extensive claim holdings covering porphyry copper-gold prospects in the "Golden Triangle" of British Columbia as well as a 100% interest in the Lundmark-Akow Lake gold-copper property in NW Ontario and two former producing mines: the La Corne molybdenum mine property in Quebec and the Scossa gold mine property in Nevada. The Company also retains a 2% NSR on the Hislop gold property in

Ontario.
