

George Glasier of Western Uranium & Vanadium Outlines Production Growth and New Processing Facility

written by InvestorNews | March 23, 2023

In this InvestorIntel interview during PDAC 2023, Chris Thompson talks to [Western Uranium & Vanadium Corp.](#)'s (CSE: WUC | OTCQX: WSTRF) CEO, President, and Director George Glasier about an update on their Sunday Mine Complex located in Colorado, USA. Currently producing and stockpiling uranium and vanadium ores at the Sunday Mine Complex, George provides [an update](#) on their new mineral processing facility to be built in Utah, USA to recover uranium, vanadium, and cobalt with initial production from the facility expected in 2026.

George goes on to discuss their patented Kinetic Separation Technology that reduces the mass put through the mill by up to 10 times. In addition to reducing the environmental footprint, George explains how Western Uranium & Vanadium's Kinetic Separation Technology considerably reduces the cost of production.
