written by InvestorNews | November 18, 2019

"When it comes to our (business) model. Essentially we are looking for small home care businesses primarily in the US. They are generally between a million to three million dollars in revenue. They are in secondary market where its less competitive. We have been buying in New England and most recently in South Central. These businesses have been around for 10 to 15 years. They are predominantly owned by a founder who is looking for a succession plan. We identify these businesses as part of our role up strategy. We look to make incremental improvement weather it be revenue or expense management or training or marketing. Every agency is little bit different and unique but we bring those incremental improvements and as we add these small businesses to a larger platform we start to see payoffs from a financial perspective." States Chris Dobbin, President and CEO of [Nova Leap Health Corp.](#) (TSXV: NLH), in an interview with InvestorIntel's Tracy Weslosky.

Chris went on to say that Nova Leap has had nine consecutive quarters of revenue growth and the management is delivering results that they said they would do. Chris further added that Nova Leap has made three aquisitions this year and it continues to pursue more acquisitions. The company recently made an acquisition in Massachusetts and expanded to South Central USA with an acquisition in Oklahoma.
