David Regan on Sona Nanotech's rapid-result saliva based COVID-19 test

written by InvestorNews | December 14, 2021

In a recent InvestorIntel interview, Chris Thompson spoke with David Regan, CEO of Sona Nanotech Inc. (CSE: SONA | OTCQB: SNANF) about Sona's partnership with FDA registered Arlington Scientific to bring its rapid saliva-based COVID-19 test to market.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), David Regan said that Sona Nanotech is a nanotechnology life sciences company with a unique biocompatible gold nanorod platform technology that is free from any toxin. He went on to provide an update on Sona's rapid test development portfolio comprising of a saliva based COVID-19 test and a concussion screening test, the types of which currently don't exist in the market. In the interview, David also provided an update on Sona's research around its gold nanorods for its use in targeted drug delivery and photothermal therapy.

About Sona Nanotech Inc.

Sona Nanotech is a nanotechnology life sciences firm that has developed multiple proprietary methods for the manufacture of various types of gold nanoparticles. The principal business carried out and intended to be continued by Sona is the development and application of its proprietary technologies for use in multiplex diagnostic testing platforms that will improve performance over existing tests in the market. Sona Nanotech's gold nanorod particles are CTAB (cetyltrimethylammonium) free, eliminating the toxicity risks associated with the use of other gold nanorod technologies in medical applications. It is expected that Sona's gold nanotechnologies may be adapted for use in applications, as a safe and effective delivery system for multiple medical treatments, subject to the approval of various regulatory boards, including Health Canada and the FDA.
