

Dr Francis Dube of ZEN Graphene Responds to Health Canada's Graphene Mask Recall

written by InvestorNews | April 6, 2021

In a recent InvestorIntel interview, Tracy Weslosky interviews Dr Francis Dube, Executive Chairman of [ZEN Graphene Solutions Ltd.](#) (TSXV: ZEN) about the Health Canada recall for graphene protective masks made late last week.

Responding to the [recall statement](#) made on Friday, April 2, 2021" ...advising Canadians not to use face masks that contain graphene because there is a potential that they could inhale graphene particles, which may pose health risks", Dr Dube reinforces Health Canada's action but is careful to qualify that ZEN's Trebor product line was not the catalyst for this recall. Adding further understanding to the news release issued by ZEN Graphene [earlier today](#) to access the full interview, [click here](#)

About ZEN Graphene Solutions Ltd.

ZEN is a next-gen nanomaterials technology company developing graphene-based technologies that help protect people and the environment. ZEN is currently focused on commercializing a patent pending graphene-based coating with 99% biocidal activity, including against COVID-19, and the potential to use similar graphene compounds as pharmaceutical products against infectious diseases. The company has a significant R&D pipeline with an interest in monomers, polymers, metal alloys, corrosion coatings, biosensors along with the production of graphene oxide and graphene quantum dots. Additionally, the company owns the unique Albany Graphite Project which provides the company with a potential competitive advantage in the graphene market. Labs in

Japan, UK, Israel, USA, and Canada have independently demonstrated that ZEN's Albany Pure™ Graphite is an ideal precursor material that easily converts (exfoliates) to graphene, using a variety of mechanical, chemical, and electrochemical methods.
