

Michael Lende on a Health Canada approved touchless fever detection system that can help identify potential at-risk carriers

Peter Clausi with Predictiv AI CEO Michael Lende on the touchless ThermalPass Fever Detection System

In a recent InvestorIntel interview Peter Clausi speaks with Michael Lende, President and CEO of Predictiv AI Inc. (TSXV: PAI), about their ThermalPass Fever Detection System. Michael said that ThermalPass is a Health Canada approved touchless fever detection system that can help identify potential at-risk carriers.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here](#) to subscribe to the InvestorIntel Channel), Michael went on to say that camera-based sensors have privacy issues but Predictiv AI's ThermalPass Fever Detection System uses thermal medical grade sensors which are nonintrusive and preserves anonymity of the people passing through. "It can scan 60 people per minute." He added. "There are 24 medical grade sensors in the ThermalPass, each taking 100 readings per second. It is quite accurate as you are going through."
