

GrowPros Provides Corporate Update & Annual General Meeting Results

☒ June 16, 2015 (Source: Marketwired) – GrowPros Cannabis Ventures Inc. (“**GrowPros**” or the “**Company**”) (CSE:GCI) is pleased to provide shareholders with the following corporate update in regard to several of the Company’s initiatives.

Status of MMPR Application

GrowPros MMP Inc. (the Company’s wholly-owned subsidiary) had submitted an application under the *Marihuana for Medical Purposes Regulations* (“**MMPR**”) for a proposed production facility north of Ottawa, Ontario. The application was submitted in November 2014 and the Company continues to work through the application process. The process is a long and thorough one, with application milestones that change as the MMPR program matures. These factors are out of the Company’s control, however management is doing its best to respond promptly whenever there is a request from the regulators regarding the application. The Company believes that it has a solid production plan based on years of hands-on medical cannabis cultivation that will provide high quality and low cost medicinal cannabis to qualified Canadian patients. GrowPros is encouraged by the recent granting of licenses and the increased transparency of the application process.

Export Hydro Release Update

The Letter of Intent has been extended to June 30th, 2015 as the Company negotiates with a financial partner to secure the acquisition.

GrowPros continues to source opportunities in Canada and the U.S. legal medicinal cannabis industries in an attempt to bring value to our shareholders.
