

WeedMD Completes First Harvest at its Large Scale State-of-the-Art Greenhouse

TSXV: WMD

September 6, 2018 (Source)
– Company marks the event with WeedMD’s “First Harvest” celebration as it continues to execute on its greenhouse expansion in Strathroy, Ontario

WeedMD Inc. (TSX-V:WMD) (OTC:WDDMF) (FSE:4WE) (“WeedMD” or the “Company), a federally-licensed producer and distributor of cannabis, is pleased to announce it has now completed the first harvest from its modern greenhouse in Strathroy, Ontario.

The Company marked the event with the WeedMD “First Harvest” event, a community open house that welcomed well over 120 guests that included WeedMD’s Board of Directors, local government, business leaders, investors, media representatives and employees.

“We’re proud to have been able to share this important milestone with our community, stakeholders, employees and industry. The first harvest was completed in early September and resulted in an impressive yield from our first 10,000 square foot grow room, with additional harvests from two further new grow rooms planned over the coming weeks,” said Keith Merker, CEO of WeedMD. “We’re on track to meet our production targets by year end and beyond. This impressive expansion in capacity and product availability will be leveraged to support WeedMD’s medical, adult-use, and international initiatives.”

Another 16 modern grow rooms from the first 220,000 sq. ft. are scheduled to be progressively brought online over the remainder of 2018. Furthermore, an additional 300,000 sq. ft. from the company's Phase 2 expansion is anticipated to be online by the end of December 2018. Cumulatively and following Health Canada approval, the company anticipates entering 2019 with one of the largest operating production platforms in the industry.
