June 3, 2021 (Source) – **Predictiv AI Inc. (TSX-V: PAI) (OTC: INOTF) (FSE: 71TA)** (“**Predictiv AI**” or the “**Company**”), www.predictiv.ai, a software and solutions provider in the artificial intelligence markets, announces its financial results for the fourth quarter and year ended January 31, 2021. All figures are reported in Canadian Dollars and are in accordance with International Financial Reporting Standards unless otherwise noted.

Corporate and Business Highlights – FY2021

- Established AI Labs Inc. (“AI Labs”) as a wholly owned subsidiary, to design and develop new products and established SMRT Labs Inc. (“SMRT Labs”) as a joint venture company to commercialize ThermalPass. SMRT Labs is owned 51% by AI Labs and 49% by Commersive Solutions Corp., a developer of integrated, point-of-sale technologies that creates unique retail experiences.
- The Company secured Health Canada approval to deploy breakthrough fever detection system, ThermalPass.
- Weather Telematics Inc. launched *Alert Fleet*, a cost-saving software/sensor system that will provide fleet owners with the tools they need to run significantly safer and more efficient fleets.
- Secured a multi-year agreement with Synoptic Data PBC for data provision services. This licensing contract will generate seven-figure revenue over the term for Weather Telematics and will launch its next generation of weather and road temperature sensors, which turns vehicles into their own mobile weather stations.
- Created a joint force with *Get Ready™* and *Protect Your*

Office to create Safe Site Global Association.

- Formed partnership with Sigfox Canada to enter into global sales channel and technology integration for ThermalPass™.
- Added TFG Concepts Inc. as a channel reseller to drive sales across Canada.
- Enhanced ThermalPass sales channel by adding MCL Sustainable Cleaning Solutions as a channel reseller and distributor to drive sales in the K12 education, health care, hospitality, food service, commercial real estate, long-term care, and government sectors across Canada.
- Formed a new strategic channel partnership with inField Solutions Inc. to commercialize *Alert Fleet*.
- Formed partnership with Security Identification Systems Corp. (“SISCO”), to pairing ThermalPass with SISCO Fast-Pass®Vistor Management System to assist with track-and-trace efforts and to provide enhanced peace of mind to building occupants and visitors.
- Created partnership with the Waterloo Artificial Intelligence Institute at the University of Waterloo. This partnership will allow PAI Inc’s subsidiary, AI Lab Inc. to pursue its various innovations through leveraging Waterloo.AI as an extension of the Predictiv AI team.
- WTX Inc. has formalized a strategic product integration partnership with Propel IT Inc. (“Propel”). The new partnership will significantly enhance available real-time data to which drivers and dispatchers can access. WTX’s hyperlocal, advanced road weather hazard alert system warns drivers of impending dangerous conditions such as black ice, poor visibility, and hydroplaning.

“Our team successfully repurposed our sensor based artificial intelligence to create ThermalPass, a state-of-the-art unique temperature scanning system in a short time frame, to mitigate the spread of contagions during these difficult times and beyond. We also turned our proprietary datasets into a life and money saving Alert Fleet product with a go to market strategy which is poised to provide thousands of fleets with cost savings and a safer driving environment.” said Michael Lende, President & CEO of Predictive AI. He continues, “This has been a year of challenges, but the company has set up viable business initiatives with products designed to solve

real-world problems which impact our health, safety and economy. We are proud to have established a business development model and infrastructure with a foundation for creating future shareholder value. PAI continues to take necessary steps to build out our reseller network and sales channels. While ThermalPass sales have been behind, we are targeting the verticals where significant government and corporate funding has been allocated towards health and safety for school systems and hospitals in the United States. These are areas where we have received early validation and customer base. We continue to be committed to delivering on our business initiatives.”

Predictiv AI is not making any express or implied claims that its product has the ability to eliminate, cure, or contain the COVID-19 (or SARS-2 coronavirus) at this time.
