

# Exro Update on Coil Driver for Electric Cars with Potencia

February 3, 2021 (Source) –

- 100 Volt Coil Driver ready to ship to Potencia
- Testing complete of Potencia electric motor integration with the 100 Volt Coil Driver
- Potencia to provide performance validation results by early third quarter 2021

Exro Technologies Inc. (TSXV: EXRO) (OTC: EXROF) (the “Company” or “Exro”), a leading clean technology company which has developed a new class of power electronics for electric motors and batteries, is pleased to announce an update on the Coil Driver for electric cars with Potencia Industrial, S.A. DE C.V. (“Potencia”).

The in-house testing of the Potencia motor integrated with the Exro 100 Volt Coil Driver is complete and is being packaged to ship this Friday. The testing was delayed prior to Christmas, but the team has worked hard to complete the integration and is looking forward to working alongside the Potencia team who will conduct rigorous testing to ensure operational validation in an electric car application.

Exro is looking forward to sharing the performance results as soon as they are completed in third quarter 2021 and continue to be very diligent on meeting major milestones for this collaboration.

“Despite the slight delay, we are delighted to get the Coil Driver over to Potencia now and can’t wait to see the results from their performance tests”, said Sue Ozdemir, Chief Executive Officer of Exro. “I am proud of all the extra

efforts from our engineering team to get this completed. Our collaboration with Potencia remains strong and we will continue to make this project deliverable a priority in the months ahead.”

### **About Exro Technologies Inc.**

Exro is a clean technology company pioneering intelligent control solutions in power electronics to help solve the most challenging problems in electrification. Exro has developed a new class of control technology that expands the capabilities of electric motors, generators, and batteries. Exro enables the application to achieve more with less energy consumed.

Exro’s advanced motor control technology, the Coil Driver, expands the capabilities of powertrains by enabling two separate torque profiles within a given motor. A major advancement in the sector, dynamic motor configuration enables efficiency optimization for each operating mode resulting in reduction of energy consumption. The controller automatically selects the appropriate configuration in real time so that power and efficiency are intelligently optimized.

### **CAUTIONARY STATEMENT REGARDING FORWARD LOOKING STATEMENTS**

This news release contains forward-looking statements and forward-looking information (together, “forward-looking

statements") within the meaning of applicable securities laws. All statements, other than statements of historical facts, are forward-looking statements. Generally, forward-looking statements can be identified by the use of terminology such as "plans", "expects", "estimates", "intends", "anticipates", "believes" or variations of such words, or statements that certain actions, events or results "may", "could", "would", "might", "will be taken", "occur" or "be achieved". Forward looking statements involve risks, uncertainties and other factors disclosed under the heading "Risk Factors" and elsewhere in the Company's filings with Canadian securities regulators, that could cause actual results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking statements. Although the Company believes that the assumptions and factors used in preparing these forward-looking statements are reasonable based upon the information currently available to management as of the date hereof, actual results and developments may differ materially from those contemplated by these statements. Readers are therefore cautioned not to place undue reliance on these statements, which only apply as of the date of this news release, and no assurance can be given that such events will occur in the disclosed times frames or at all. Except where required by applicable law, the Company disclaims any intention or obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
