## About Delta Resources Limited

Delta Resources Limited is a Canadian mineral exploration company focused on growing shareholder value through the exploration of two very high-potential gold and base-metal projects in Canada.

- DELTA-1, located 50km west of Thunder Bay, Ontario where a 1000m drilling program was completed in Nov. 2019, testing the newly discovered Eureka Gold prospect. Results so far show very wide intercepts of low-grade gold in a km-scale alteration zone.
- DELTA-2, located 35km SE of the Chibougamau, Quebec, where preliminary due diligence and prospecting work discovered two new gold occurrences where grab samples returned up to 55,8 g/t Au and 11,45 g/t Au.

Delta also owns a 100% interest in the Bellechasse-Timmins gold deposit in SE Quebec, which contains a 43-101 gold resource of 171,000 oz @1.83 g/t gold (indicated) and an additional 95,000 oz @1.36 g/t gold (inferred). On July 3, 2020, Delta signed an agreement with Yorkton Ventures Inc for the sale of the Bellechasse-Timmins project for \$1,7M payable over 15 months of signing.
