

Goldplay Announces Ms. Diaz Nieves' Appointment as Next General Director of Mines, Mexico

November 13, 2018 (Source) – **Goldplay Exploration Ltd. (TSXV: GPLY, OTCQB: GLYXF)** (“Goldplay” or the “Company”) is very pleased to congratulate its director, Ms. Laura Cristina Diaz Nieves, on her appointment as the next General

Director of Mines in Mexico. As a result of this appointment, Ms. Diaz Nieves is required to relinquish her position as director of the Company at the end of this month.

Ms. Diaz Nieves has been a director of the Company since March 2013, helping to steer the Company through its start-up to going public stages of development. With the Company’s principal properties being in Mexico, Ms. Diaz Nieves, who is also a lawyer, has been integral in providing the Company with guidance on its various Mexican property transactions during her tenure on the Board.

Marcio Fonseca, President of the Company stated: “We would like to take this opportunity to thank Laura for her valued contributions to the Company over the past five years and we wish her all of the best with this appointment.”

About Goldplay Exploration Ltd.

Goldplay owns a >250 sq. km exploration portfolio in the historical Rosario Mining District, Sinaloa, Mexico. Goldplay’s current exploration focus includes surface exploration and drilling, with a resource update to follow at

the advanced-stage San Marcial Project and follow up exploration program at the El Habal Project.

The San Marcial land package consists of 1,250 ha, located south of the La Rastra and Plomosas historical mines and 20 km from the Company's 100% owned El Habal Project in the Rosario Mining District, Sinaloa, Mexico. San Marcial is an attractive, near-surface high-grade silver, lead and zinc project for which a historical resource estimate has been previously disclosed.

San Marcial exhibits significant exploration upside supported by regional exploration programs completed by previous operators who identified 14 exploration targets similar to San Marcial within its 100% Goldplay-owned concessions. Some of these exploration targets consist of old shallow pits, caved shafts and historical underground workings in areas with extensive hydrothermal alteration, hosted by major regional structures.

The El Habal Project is a drilling stage project with an ongoing drill program. The oxidized gold mineralized zone outcrops along a series of rolling hills with evidence of historical shallow underground mining along a 6 km long prospective corridor. The El Habal Project is located near the historical gold-silver Rosario Mine which reportedly operated for over 250 years. Goldplay's team has over 30 years of experience with senior roles in exploration, financing, and development in the mining industry, including over ten years of extensive exploration experience in the Rosario Mining District, leading to previous successful discoveries. A current NI 43-101 report on the El Habal Project is filed on SEDAR.
