

Signature Acquires Additional 157 Claims Along Favourable Gold Trend

✘ April 30, 2018 (Source) – Signature Resources Ltd. (TSX-V:SGU) (OTCQB:SGGTF) (“**Signature**” or the “**Company**”) is pleased to announce that it has received preliminary data from its recently completed survey conducted by Terraquest. A preliminary analysis of the data has determined that it is of high quality.

“I’m delighted to report that the data gathered was of particularly high quality and judging from the preliminary plots it appears that the geophysics has identified a number of magnetic and EM anomalies in the area associated with known mineralization,” stated Howard Barrie, CEO of Terraquest.

Signature as a result of its initial review of survey results is pleased to announce that it has staked 157 single cell claims totaling 3,099.2 hectares. This acquisition elevates the Lingman Lake property to a district scale exploration project. The claims, in part, cover the eastern extension of the favourable gold trend by approximately 8 kilometers.

“We are very excited to have added to our land position the 157 claims totaling 3,099.2 hectares. The important north contact zone between volcanic rocks and granitic rocks is effectively entirely staked along a 30 kilometer length. This action was driven by preliminary interpretation of the airborne survey, the results of which will be released pending qualified person sign-off,” commented Walter Hanych, President and CEO of Signature Resources.

With this acquisition, Signature land holding amounts to 15,096.3 hectares of land available for gold exploration within the Lingman Lake Greenstone Belt.

Qualified Persons

The scientific and technical content of this press release has been prepared, reviewed and approved by Walter Hanych P.Geo. and President-CEO of Signature Resources who is a Qualified Person as defined in National Instrument 43-101 – *Standards of Disclosure for Mineral Projects*.

About Signature

The Lingman Lake gold property consists of four free hold patented claims and 762 single cell staked claims, comprising 15,096.3 hectares. The property hosts an historic estimate of 234,684 oz of gold* (1,063,904 tonnes grading 6.86 g/t with 2.73 gpt cut-off) and includes what has historically been referred to as the Lingman Lake Gold Mine, an underground substructure consisting of a 126.5-meter shaft, and 3-levels at 46-meters, 84-meters and 122-meters depths.

*This historical resource estimate is based on prior data and reports obtained and prepared by previous operators, and information provided by governmental authorities. A Qualified Person has not done sufficient work to verify the classification of the mineral resource estimates in accordance with current CIM categories. The Company is not treating the historical estimate as a current NI 43-101-compliant mineral resource estimate. Establishing a current mineral resource estimate on the Lingman Lake deposit will require further evaluation, which the Company and its consultants intend to complete in due course. Additional information regarding historical resource estimates is available in the technical report entitled, "Technical Report on the Lingman Lake Property" dated December 20, 2013, prepared by Walter Hanych, P.Geo., and Frank Racicot, P.Geo., available on the Company's SEDAR profile at www.sedar.com

Cautionary Notes

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release.

This news release contains forward-looking statements which are not statements of historical fact. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, exploration results, potential mineralization, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. Factors that could cause actual results to differ materially from such forward-looking information include, but are not limited to failure to identify mineral resources, failure to convert estimated mineral resources to reserves, the inability to complete a feasibility study which recommends a production decision, the preliminary nature of metallurgical test results, delays in obtaining or failures to obtain required governmental, environmental or other project approvals,

political risks, inability to fulfill the duty to accommodate First Nations and other indigenous peoples, uncertainties relating to the availability and costs of financing needed in the future, changes in equity markets, inflation, changes in exchange rates, fluctuations in commodity prices, delays in the development of projects, capital and operating costs varying significantly from estimates and the other risks involved in the mineral exploration and development industry, and those risks set out in the Company's public documents filed on SEDAR. Although the Company believes that the assumptions and factors used in preparing the forward-looking information in this news release are reasonable, undue reliance should not be placed on such information, which only applies as of the date of this news release, and no assurance can be given that such events will occur in the disclosed time frames or at all. The Company disclaims any intention or obligation to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, other than as required by law.
