

Mark Smith to Give Opening Keynote at InvestorIntel's 6th Annual Cleantech & Technology Metals Summit

Mr. Smith to Speak on the Global Lightweighting Revolution and Growing Demand for Certain Metals, Alloys, and Advanced Materials

April 24, 2017 – Largo Resources Ltd. (TSX: LGO) (OTCQB: LGORF) and NioCorp Developments Ltd. (TSX: NB; OTCQX: NIOBF; and FSE: BR3) are pleased to announce that they will be jointly presenting at **InvestorIntel's 6th Annual Cleantech & Technology Metals Summit** (CTMS2017.com | @CTMS2017)

Mark A. Smith, CEO of both Largo and NioCorp, will discuss how growing demand for lighter-weight surface and air transportation systems will drive increased demand for strategic metals such Vanadium, Niobium, Scandium, Titanium, and high-performance alloys made with these and other metals.

Mr. Smith will give the opening keynote presentation of the two-day conference, starting at 8:40 a.m. ET on Monday, May 15th.

"I believe that we will see a continuing acceleration in the global effort to produce lighter-weight surface and air transportation systems so that ever-stricter air emissions, fuel economy, and other environmental standards can be met," said Mr. Smith. "Pick your molecule of concern – carbon dioxide, methane, nitrogen oxides, volatile organic compounds – lightweighting transportation systems can deliver large emissions reductions relatively quickly. I see this paradigm shift accelerating in the years ahead, which should help drive

demand for a variety of metals and alloys and other advanced materials that reduce mass in these systems.”

Featuring some of the most impressive market movers in the cleantech and technology metals sector, #CTMS2017 is scheduled for Monday, May 15th and Tuesday, May 16th at the Omni King Edward Hotel in Toronto, Canada located at 37 King St. East.

InvestorIntel Corp. CEO Tracy Weslosky commented: “The selection of Mark A. Smith as the keynote speaker for what will be our most powerful summit to date was inevitable in lieu of his exceptional professional career and leadership in the strategic material sector. A visionary, entrepreneur and CEO for both Largo Resources Ltd. and NioCorp Developments Ltd. – Mark will provide an overview on the increasing demand for technology metals such as Vanadium, Niobium, Scandium and Titanium and their impact on the global cleantech industry. Kicking off our 2-day annual investor event on Monday, May 15th and Tuesday, May 16th we believe CTMS2017 will be our best year yet!”

InvestorIntel, a leading online source of independent investor information, promises at this years **Cleantech & Technology Metals Summit** to reveal through InvestorIntel’s EU Editor, Christopher Ecclestone – *the next big thing*. Intended to provide a strong venue for dialogue and debate from industry leaders and the investment community, the **Cleantech & Technology Metals Summit** is being held on Monday, May 15th and Tuesday, May 16th from 8AM – 6PM. Located at the Omni King Edward Hotel on 37 King St. East in Toronto, Ontario – Canada, to register as a delegate, go to InvestorIntelSummit.com or CTMS2017.com.

About #CTMS2017: From electric vehicles to technologies that are changing the world, #CTMS2017 promises to be the #1 source for debate and dialogue for industry and investors alike looking for *the next big thing*. Cobalt, Lithium, Graphite,

Niobium, Vanadium, Scandium, Manganese or the next Super Metal – #CTMS2017 has 2 dozen presenters and 10 panels filled with international experts over a 2-day intense summit that will leave you with the most exciting review of global equities focused on strategic materials, critical metals and the associated technologies that impact the world.

Engage in the off-the grid, on-the-grid debate; lithium vs graphite demand in the battle of the batteries; what about conflict minerals; and is cobalt the real deal – engage with the best and attend InvestorIntel's 6th Annual Cleantech & Technology Metals Summit being held on Monday, May 15th and Tuesday, May 16th from 8AM – 6PM at the Omni King Edward Hotel on 37 King St. East in Toronto, Canada (CTMS2017.com).

Delegate Passes: To secure a 2-day InvestorIntel's 6th Annual Cleantech & Technology Metals Summit delegates pass (includes lunches/reception) for Monday, May 15th and Tuesday, May 16th from 8AM – 6PM (EST), click on the following link: <http://bit.ly/2p2lC3k>
