

Largo commences feed to the kiln at Maracas Vanadium Project

✘ May 26, 2014 (Source: CNW) – Largo Resources Ltd. (“Largo” or the “Company”) is pleased to announce that it has begun feeding vanadium concentrate into the kiln at its Maracas Vanadium Project in Bahia, Brazil.

Mark Brennan, Largo’s President and Chief Executive Officer, stated “We are very excited to now be feeding the kiln. This represents another milestone that shortly leads to our first production. I would like to congratulate our technical team on this accomplishment.”

About Largo

Largo is a growing strategic mineral company with projects in Brazil and Canada. The immediate goal of the Company is to bring its Maracás Vanadium Project to production in 2014. Largo also has interests in a portfolio of other projects, including: a 100% interest in the Currais Novos Tungsten Tailings Project in Brazil, which the Company continues to develop; a 100% interest in the Campo Alegre de Lourdes Iron-Vanadium Project in Brazil; and a 100% interest in the Northern Dancer Tungsten-Molybdenum property in the Yukon Territory, Canada.

Largo is listed on the TSX Venture Exchange under the symbol “LGO”.

Mr. Michael Mutchler, Chief Operating Officer to Largo and a Qualified Person under National Instrument 43-101, has reviewed and approved the contents of this press release.

Disclaimer

This press release contains forward-looking information under Canadian securities legislation. forward-looking information includes, but is not limited to, statements with respect to completion of the private placement, Largo's development potential and timetable of the Maracás and Northern Dancer projects; Largo's ability to raise additional funds necessary; the future price of tungsten and molybdenum; the estimation of mineral reserves and mineral resources; conclusions of economic evaluation; the realization of mineral reserve estimates; the timing and amount of estimated future production, development and exploration; costs of future activities; capital and operating expenditures; success of exploration activities; mining or processing issues; currency exchange rates; government regulation of mining operations; and environmental risks. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are based on the opinions and estimates of management as of the date such statements are made. Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Largo to be materially different from those expressed or implied by such forward-looking statements, including but not limited to those risks described in the annual information form of Largo and in its public documents filed on SEDAR from time to time. Although management of Largo has attempted to identify important factors that could cause

actual results to differ materially from those contained in forward-looking statements, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. Largo does not undertake to update any forward-looking statements, except in accordance with applicable securities laws. Readers should also review the risks and uncertainties sections of Largo's annual and interim MD&As.
