

# Neo Lithium Receives Catamarca Government Approval of its Environmental Impact Assessment for the Construction and Operation of its 3Q Project

January 11, 2022 (Source) – Neo Lithium Corp. (“**Neo Lithium**” or the “**Company**”) (TSXV: NLC) (OTCQX: NTTHF) (FSE: NE2) is pleased to announce that its wholly owned subsidiary, LIEX S.A. (“LIEX”), has received a “Declaracion de Impacto Ambiental” (the “DIA”) from the Environmental and Mining Authority in Catamarca Province, Argentina. The DIA represents the Environmental and Mining Authority’s approval of LIEX’s Environmental Impact Assessment (the “EIA”) for construction and operation of the mine as set out in the feasibility study for its wholly-owned Tres Quebradas lithium brine project (“3Q Project”) announced on October 26, 2021 and described in the technical report filed on November 25, 2021. The DIA is the main environmental approval document required for the construction and operation of mining projects in Catamarca Province.

The issuance of the DIA confirms that the EIA is in compliance with the standards and regulations under the national and provincial mining law and contains customary requirements to maintain the DIA in good standing. As part of the issuance of the DIA, the Company agreed with Catamarca Province to fund an infrastructure trust to be administered for the benefit of the 3Q Project and its impacted areas.

**Transaction Update**

As announced on October 8, 2021, Zijin Mining Group Co., Ltd. (“Zijin”) (SSE: 601899) (SEHK: 2899) and Neo Lithium entered into a definitive arrangement agreement (the “Arrangement Agreement”) pursuant to which Zijin agreed to acquire all the outstanding shares of Neo Lithium (the “Transaction”) at a price of C\$6.50 per share in cash. The Transaction will be completed pursuant to a court approved plan of arrangement under the *Business Corporations Act* (Ontario).

The issuance of the DIA satisfies one of the final conditions precedent on the part of the Company to fulfill pursuant to the Arrangement Agreement, other than conditions that can only be satisfied at the effective time of the Transaction.

The Transaction was approved by Neo Lithium’s shareholders at a special meeting held for that purpose on December 10, 2021, and the Ontario Superior Court of Justice (Commercial List) granted a final order approving the plan of arrangement to implement the Transaction at a hearing held on December 15, 2021. Zijin is in the process of obtaining approval for the Transaction from relevant authorities in the People’s Republic of China. Closing of the Transaction would be expected to close soon thereafter.

### **About Neo Lithium Corp.**

The 3Q Project is located in the Province of Catamarca, the largest lithium producing area in Argentina. The project covers approximately 35,000 ha and the salar complex within this area is approximately 16,000 ha.
