

Neo Performance Materials Inc. Announces Normal Course Issuer Bid and Automatic Purchase Plan for its Common Shares

June 1, 2021 (Source) – Neo Performance Materials Inc. (“**Neo**” or the “**Company**”) (TSX: NEO) announced today that the Toronto Stock Exchange (the “**TSX**”) has accepted a notice filed by Neo of its intention to make a Normal Course Issuer Bid (the “**Bid**”) for up to 2,111,758 of its issued and outstanding common shares (the “**Shares**”). In connection with the Bid, the Company has entered into an automatic share purchase plan with its designated broker to allow for purchases of its Shares (the “**Share Purchase Plan**”).

Purchases of Shares under the Bid may commence on June 4, 2021 and will terminate on June 3, 2022, or on such earlier date as the Bid is complete. Purchases of Shares will be made through the facilities of the TSX or alternative Canadian trading systems in accordance with its rules or through the Share Purchase Plan. Under the Share Purchase Plan, purchases may be made in the open market through the facilities of the TSX or alternative Canadian trading systems. Purchases under the Share Purchase Plan will be determined by Neo’s broker in its sole discretion, without consultation with the Company, subject to the limitations of the Share Purchase Plan and the rules of the TSX. The Share Purchase Plan is considered an “automatic plan” for purposes of applicable Canadian securities laws and has been reviewed by the TSX. The Share Purchase Plan was established to provide standard instructions regarding how the Shares are to be purchased under the Bid. Accordingly, Neo may purchase its Shares in accordance with

the Share Purchase Plan on any trading day during the Bid, including during self-imposed trading blackout periods. The Company may otherwise vary, suspend or terminate the Share Purchase Plan only if it does not have material non-public information, the decision to vary, suspend or terminate the Share Purchase Plan is not taken during a self-imposed trading blackout period and any variation, suspension or termination is made in accordance with the terms of the Share Purchase Plan.

The average daily trading volume of the Shares for the previous six calendar months (“ADTV”) ending April 30, 2021 was 62,577 Shares. On any trading day, purchases under the Bid will not exceed 15,644 Shares. The price that the Company will pay for any Shares purchased under the Bid will be the prevailing market price at the time of purchase. Any Shares purchased by the Company will be cancelled.

As of May 31, 2021, there were 37,868,942 Shares issued and outstanding. The 2,111,758 Shares that may be repurchased under the Bid represent approximately 10% of the public float of Shares (as determined in accordance with the policies of the TSX) on May 31, 2021.

Neo believes that its Shares have been trading in a price range which does not adequately reflect the value of such shares in relation to the business of Neo and its future business prospects. As a result, depending upon future price movements and other factors, Neo believes that its outstanding Shares may represent an attractive investment to Neo. Furthermore, the purchases are expected to benefit all persons who continue to hold Shares by increasing their equity interest in Neo.

Pursuant to a previous notice of intention to conduct a normal course issuer bid, under which the Company and received approval from the TSX to purchase up to 1,883,637 Shares for the period from May 19, 2020 to May 18, 2021, the Company has

purchased as of May 18, 2021, an aggregate of 274,136 Shares on the open market at a volume weighted average purchase price of \$10.56.
