

Carbon Streaming Expands Into Europe Trading on the Frankfurt Stock Exchange

July 30, 2021 (Source) – Carbon Streaming Corporation (NEO: NETZ) (FSE: M2QA) (“**Carbon Streaming**” or the “**Company**”), one of the first publicly traded companies that provides investors with direct exposure to the expanding carbon credit markets, is pleased to announce that it has listed on the Frankfurt Stock Exchange (“**FSE**”) under the symbol M2QA. This additional listing in Europe is part of the Company’s mandate to provide investors around the world with exposure to the carbon credit marketplace.

Justin Cochrane, President and CEO, noted “extending our investor outreach with this Frankfurt listing affords the European investment community the opportunity to participate in scaling and accelerating the carbon offset markets with us.” He continued, “this is particularly well timed as we look to execute on our investment pipeline in the coming months and quarters.”

Investor Highlights

- Carbon Streaming is among the first publicly traded carbon offset investment companies on any exchange and the Company is proud to provide our investors with unique global access to the carbon credit marketplace.
- Listing updates from Frankfurt can be found here: <https://www.boerse-frankfurt.de/equity/carbon-streaming-corp>.
- The Company recently listed on Canada’s NEO Exchange, trading under the symbol NETZ (see news release dated July 26, 2021).
- The Company intends to list on a U.S. stock exchange,

such as NASDAQ or the New York Stock Exchange, prior to the end of the year.

- The Company remains posted for trading on the OTC Markets in the United States under the updated ticker "OFSTF".

The Frankfurt Stock Exchange is one of the world's largest exchange-trading markets, connecting major European financial hubs in Germany, Switzerland, Luxembourg, Lichtenstein, Monaco, and others. The Company will maintain its primary listing, just announced this week, on the NEO Exchange.

About Carbon Streaming Corporation

Carbon Streaming is a unique ESG principled investment vehicle offering investors exposure to carbon credits, a key instrument used by both governments and corporations to achieve their carbon neutral and net-zero climate goals. Our business model is focused on acquiring, managing and growing a high-quality and diversified portfolio of investments in projects and/or companies that generate or are actively involved, directly or indirectly, with voluntary and/or compliance carbon credits.

The Company invests capital through carbon credit streaming arrangements with project developers and owners to accelerate the creation of carbon offset projects by bringing capital to projects that might not otherwise be developed. Many of these projects will have significant social and economic co-benefits in addition to their carbon reduction or removal potential.
