

Quaterra Finalizes Sale of Uranium Assets

March 17, 2014 (Source: Marketwired) – Quaterra Resources Inc. (TSX VENTURE:QTQ)(OTCQX:QTRRF) today announced that it has closed a transaction to sell its uranium properties and assets located in the states of Arizona, Utah and Wyoming for Cdn \$500,000.

The all-cash transaction, previously announced in a March 4, 2014 press release, closed on March 14, 2014, with the payment of funds to Quaterra. The sale has obtained regulatory approval.

The transaction provides working capital and will free-up time and resources for the Company to focus on its Yerington district copper properties.

Disclosure note:

Some statements contained in this news release are forward-looking statements under Canadian securities laws and within

the safe harbor of the U.S. Private Securities Litigation Reform Act of 1995. These statements generally are identified by words such as the Company "believes", "expects", and similar language, or convey estimates and statements that describe the Company's future plans, objectives or goals. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Assumptions include that the transaction will free-up time and resources for the Company to focus on its Yerington-district copper properties and that the monetization of non-core assets will accelerate the Company's efforts to advance its flagship projects in the Yerington copper district, Nevada. Further information regarding risks and uncertainties which may cause results to differ materially from those projected in forward-looking statements, are included in filings by the Company with securities regulatory authorities. Readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the date thereof. The Company does not undertake to update any forward-looking statement that may be made from time to time except in accordance with applicable securities laws. References may be made in this press release to historic mineral resource estimates. None of these are NI 43-101 compliant and a qualified person has not done sufficient work to classify these historic estimates as a current mineral resource. They should not be relied upon and Quaterra does not treat them as current mineral resources.
