Awakn Life Sciences Corp. (NEO: AWKN) (OTCQB: AWKNF) (FSE: 954) (“Awakn” or the “Company”), a biotechnology company developing and delivering psychedelic therapeutics (medicines and therapies) to treat addiction, is pleased to announce the closing of its acquisition of Axonklinikken AS (“Axon”), a leading ketamine-assisted psychotherapy clinic in Norway, [as previously announced on September 16, 2021](#). “The close of our acquisition in Norway is a key strategic milestone in making psychedelic therapeutics to treat addiction a mainstream treatment – helping individuals and their families to move past their addictions and live a fuller life,” said Anthony Tennyson, Awakn’s CEO. “This acquisition will enable Awakn to demonstrate the depth of our three-pronged revenue generation strategy: clinics in the U.K. and Europe, licensing partnership beyond the U.K. and Europe, and therapeutics commercialization. We look forward to opening more clinics across the Nordic region and globally as we aim to become the leading authority in the development and delivery of psychedelic therapeutics.”

Pursuant to the terms of the transaction, Awakn has issued to the shareholders of Axon an aggregate of 200,000 common shares of Awakn at a deemed price of CAD\$2.50.
