

Cielo Announces Intention to List on the TSX Venture Exchange

written by Raj Shah | March 16, 2021

March 16, 2021 ([Source](#)) – Cielo Waste Solutions (CSE:CMC), (OTCQB:CWSFF), (CNSX:CMC.CN), (WKN:C36) (“Cielo” or the “Company”) is pleased to announce its intention to apply for the listing of its shares for trading on the TSX Venture Exchange (“TSXV”). Cielo’s board of directors has approved of the move and the Company intends to submit the application to the TSXV this week.

Don Allan, President and CEO of Cielo Waste Solutions stated “This year has begun extremely well for Cielo. From our first pre-sale of renewable fuel, to better than expected preliminary results in desulphurization tests, we’ve had an amazing start to 2021, and this uplisting to a larger stock exchange is just one more step in our business plan to make Cielo world class. We believe that joining the TSXV opens new doors for Cielo with respect to capital markets and exposure.” Mr. Allan continued “The Canadian Securities Exchange has been a great way to access the Canadian public capital markets and has provided Cielo the opportunity to get to the commercial phase of our waste to renewable fuel technology at our fully operating commercial facility in Aldersyde, Alberta. We now feel ready for the next evolutionary step to join a world class exchange that we expect will bring more awareness to the Company.”

Completion of the listing on the TSXV is subject to the satisfaction of listing requirements and the approval of the TSXV. There is no assurance that the TSXV will approve the listing application or that Cielo will complete the listing as

contemplated. In the meantime, Cielo's shares will continue to trade on the Canadian Securities Exchange under the ticker symbol "CMC". Further updates will be provided as they become available.

On behalf of the Board of Directors of the Company,

Cielo Waste Solutions Corp.

About Cielo Waste Solutions Corp.

Cielo Waste Solutions Corp. is a publicly traded company with its shares listed to trade on the Canadian Securities Exchange ("CSE") under the symbol "CMC", the OTC Markets Group, on the OTCQB, under the symbol "CWSFF" and the Frankfurt Securities Exchange under the symbol WKN: C36. Cielo is a waste to renewable fuel company with a game changing technology engineered to help solve the world's garbage crisis. Cielo's technology transforms landfill garbage into renewable high-grade diesel and kerosene (aviation jet and marine fuel). Cielo's proven and patented technology is currently being deployed in the Company's Aldersyde Facility, Alberta, where wood waste is currently being converted into renewable fuels.

Cielo is headquartered in Alberta, Canada with plans to build and operate green facilities across North America as well as globally.

Cielo has already begun expanding its footprint by signing multiple Memorandums of Understanding pursuant to which third parties are in negotiation with Cielo to build, at no cost to Cielo, Joint Venture Renewable Diesel Facilities in Grande Prairie, Calgary, Medicine Hat and Lethbridge, Alberta as well

as in Nova Scotia. Each JV Facility is projected to cost, depending on throughput approximately \$50 million to build, commission and place on production. Cielo will be the general contractor and operator of all the proposed JV Facilities. The feedstock that will be used in the Company's green facilities is the world's most available and inexpensive feedstock – garbage; including household, commercial/ construction/demolition garbage, used tires, railway ties and telephone poles as well as all types of plastic that currently cannot be recycled.
