

Moovly Increases Streaming Bandwidth to Support over 3 Million Users

written by Igor Makarov | January 26, 2021

January 26, 2021 ([Source](#)) – **Moovly Media Inc. (TSXV: MVY) (OTC Pink: MVVYF) (FSE: 0PV2) (“Moovly” or the “Company”)** is pleased to announce an increase in bandwidth and enhanced support to its browser-based platform that now serves more than three million users, including more than 300 of the Fortune 500 companies, as well as many government agencies. Moovly has seen a dramatic increase in traffic of video streaming recordings from its enterprise users combined with a significant increase in bandwidth use from short-form video and social media platforms such as **Vimeo, Facebook, Tik-Tok, Instagram, Twitter,** and **Snapchat.**

As COVID-19 has changed how businesses, individuals and education environments function, demand to efficiently deliver video-based online content, including webinars, lessons and keynotes, has skyrocketed. These videos are often consumed asynchronously: users view them at a later stage and often in multiple sessions. Organizations often enrich these recorded sessions with subtitles, transcripts, translations, animated visuals and footage – all of which can be done within the Moovly platform.

Brendon Grunewald, CEO of Moovly, commented, “COVID-19 has forced organizations to replace their live lessons, seminars and events by online versions, resulting in hours of recorded videos offered via online video platforms. Increasingly, audiences expect such video content to be offered in enhanced, attractive and compelling ways. We have therefore increased Moovly’s

capability to process large video files through the user's browser, by implementing streaming technologies. Moovly's users can now edit and enhance hours-long video content without requiring specialist and expensive hardware."

About Moovly:

Moovly is the leading provider of creative cloud-based tools to tell marketing, communications and training stories using videos and video presentations. Moovly's advanced Studio Editor with millions of assets seamlessly integrated (via partnerships with Getty Images & Storyblocks) is all you need to make engaging video content to promote, communicate or explain your product, service or message. Moovly's API and Automator technologies allow third parties to automate parts or all of the content creation process, including mass video customization, personalized videos (video version of mail merge), automatic content creation or updating by connecting data sources. With clients including users from over 300 of the Fortune 500, small businesses, freelancers and Ivy league universities, Moovly is an intuitive, cost effective choice for DIY creation of engaging video-based content.

Reader Advisory

This press release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words “expect”, “anticipate”, “continue”, “estimate”, “objective”, “ongoing”, “may”, “will”, “project”, “should”, “believe”, “plans”, “intends” and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this news release contains forward-looking statements and information with respect to Moovly’s future business plans and the expected benefits of its products. The forward-looking statements and information are based on certain key expectations and assumptions made by the Company. Although the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because the Company can give no assurance that they will prove to be correct.

By its nature, such forward-looking information is subject to various risks and uncertainties, which could cause the actual results and expectations to differ materially from the anticipated results or expectations expressed. These risks and uncertainties, include, but are not limited to, Moovly’s inability to continue to commercialize its products or demand for its products decreases or disappears. Other risk factors are set forth in detail in the Company’s Management Discussion and Analysis dated August 27, 2020 which is available for review under the Company’s corporate profile at www.sedar.com. Some

other risks and factors that could cause the results to differ materially from those expressed in the forward-looking information also include, but are not limited to: general economic conditions in Canada, the United States and globally; industry conditions, unanticipated operating events; failure to obtain any necessary third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, capital and skilled personnel; changes in tax laws; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date hereof, and to not use such forward-looking information for anything other than its intended purpose. The Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
