

Moovly's Automator API Now Available via RapidAPI

written by Raj Shah | February 25, 2021

February 25, 2021 ([Source](#)) – Moovly Media Inc. (TSXV: MVY) (OTC Pink: MVMYF) (FSE: 0PV2) (“Moovly” or the “Company”) is pleased to announce that it has made its Automator API available via RapidAPI. This development streamlines how third parties can easily access the power of the Moovly Automator. Moovly's Video Automator is a powerful all-in-one tool that allows companies, organizations and brands to produce template-based, customized videos in high volumes and easily distribute these via email, social media or 3rd party applications.

[RapidAPI](#) is the world's largest API Marketplace space and has been financed by some of the industries biggest names, including M12 (the Microsoft Venture Fund) and Andreessen Horowitz. RapidAPI is used by millions of developers at companies such as Hyatt, Delta Airlines and Cisco to find and integrate third-party APIs. Moovly's Automator will now be easier to find, connect to, and managed, on the RapidAPI platform. Any company will now be able to use Moovly's advanced capabilities to easily add and integrate video functionality into all of their strategic messaging.

Opening up the Moovly API in this fashion also means that companies seeking to integrate with Moovly do not require dedicated Moovly engineering resources. This frees up Moovly engineers to work on bespoke, high-value integrations.

Moovly CEO Brendon Grunewald said “Integrations such as those facilitated by RapidAPI creates value for both parties. Video is now an essential business tool and the Moovly Automator API enables companies to easily and inexpensively tell their stories

with video. It's an open invitation to integrate with us."

About Moovly:

Moovly is the leading provider of creative cloud-based tools to create compelling marketing, communications and training videos and video presentations. Moovly's advanced Studio Editor with millions of assets seamlessly integrated (via partnerships with Getty Images & Storyblocks) is all you need to create engaging video content to promote, communicate or explain your product, service or message. Moovly's API and Automator technologies allow third parties to automate parts or all of the content creation process, including mass video customization, personalized videos (video version of mail merge), automatic content creation or updating by connecting data sources. With clients including users from over 300 of the Fortune 500, small businesses, freelancers and Ivy league universities, Moovly is an intuitive, cost effective choice for DIY creation of engaging video-based content.

Reader Advisory

This press release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words “expect”, “anticipate”, “continue”, “estimate”, “objective”, “ongoing”, “may”, “will”, “project”, “should”, “believe”, “plans”, “intends” and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this news release contains forward looking statements and information with respect to Moovly’s future business plans and the expected benefits of its products. The forward-looking statements and information are based on certain key expectations and assumptions made by the Company. Although the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward looking statements and information because the Company can give no assurance that they will prove to be correct.

By its nature, such forward-looking information is subject to various risks and uncertainties, which could cause the actual results and expectations to differ materially from the anticipated results or expectations expressed. These risks and uncertainties, include, but are not limited to, Moovly’s inability to continue to commercialize its products or demand for its products decreases or disappears. Other risk factors are set forth in detail in the Company’s Management Discussion and Analysis dated September 30, 2020 which is available for review under the Company’s corporate profile at www.sedar.com. Some other risks and factors that could cause the results to differ materially from those expressed in the forward-looking information also include, but are not limited to: general

economic conditions in Canada, the United States and globally; industry conditions, unanticipated operating events; failure to obtain any necessary third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, capital and skilled personnel; changes in tax laws; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date hereof, and to not use such forward-looking information for anything other than its intended purpose. The Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
