

Nickel 28 Announces Proposed Normal Course Issuer Bid

written by Raj Shah | May 28, 2021

May 27, 2021 ([Source](#)) – Nickel 28 Capital Corp. (“**Nickel 28**” or the “**Company**”) (TSXV: **NKL**) (FSE: **3JC**) is pleased to announce a proposed normal course issuer bid to repurchase its common shares. In the opinion of management and the board of directors of the Company, the common shares have recently traded in a price range that represents a substantial discount to the Company’s net asset value and does not reflect the underlying value of the Company.

“Using Nickel 28’s excess liquidity to buy back common shares at their current trading price would be highly accretive to our net asset value per share and represents the highest rate of return on an investment that the Company could make,” stated Anthony Milewski, the Company’s Chairman. He continued, “Accordingly, the purchase for cancellation of shares by Nickel 28 during these times will benefit the remaining shareholders by increasing their proportionate ownership in the Company.”

Nickel 28 has submitted a notice of intention to undertake a normal course issuer bid to the TSX Venture Exchange (“**TSXV**”) in connection with the purchase by Nickel 28 of up to 7,478,209 of its common shares, representing 8.7% of the 85,701,844 common shares comprising Nickel 28’s total issued and outstanding common shares as of May 26, 2021. All common shares purchased by Nickel 28 will be purchased on the open market through the facilities of the TSXV in accordance with the rules, regulations and policies of the TSXV and will be cancelled. The actual number of common shares which may be purchased, and the timing of such purchases, will be determined by Nickel 28. Decisions

regarding purchases will be based on market conditions, share price, best use of available cash, and other factors including other options to expand the Company's portfolio of assets.

The normal course issuer bid remains subject to the approval of the TSXV and will begin on the date that is two trading days after the TSXV's approval and will be open for a maximum period of 12 months. A further news release with additional details of the normal course issuer bid will be issued upon approval of the bid by the TSXV.
