Predictmedix Inc. and Juiceworks Provide Safe Entry Solutions to Facility Managers at IFMA World Workplace in Texas

written by Raj Shah | September 3, 2020

September 3, 2020 (Source) – **Predictmedix Inc. (CSE:PMED)(OTCQB:PMEDF) ("Predictmedix" or the "Company")** and Juiceworks Exhibits (Juiceworks) are pleased to announce the deployment of their Safe Entry Solutions at the IFMA 40th World Workplace this December at the Gaylord Texan Resort hotel and convention Centre from December 9-11, 2020.

Hosted by the International Facility Management Association (IFMA), World Workplace has been leading ground-breaking discussions and discoveries related to facility management and the built environment for 40 years. As the original all-encompassing learning and networking event on facilities and how to manage them, World Workplace remains the gold standard in facility management education, knowledge exchange, career development and professional network building.

IFMA is committed to ensuring all delegates, exhibitors and staff can attend the conference with peace of mind, knowing that their safety is of paramount importance.

Safe Entry Stations utilize patent-pending disruptive artificial intelligence developed in collaboration with clinicians and infectious disease specialists to screen for multiple symptoms associated with infectious disease, results display in seconds.

“Providing robust, non-invasive screening that allows people to go about their regular routines is a key differentiator in what makes our offering so valuable to the general public.” Says Dr. Rahul Kushwah, President and COO of Predict Medix.

“Being long-time event fabricators and marketers, it’s truly an honour to be in a position to make a meaningful difference to attendees, staff and exhibitors at one of the first live events since COVID” says Jonathan Auger, President and Founder of Juiceworks.

About Predictmedix Inc.

Predictmedix Inc. is an artificial intelligence (“AI”) company developing disruptive tools for impairment testing and healthcare. It is intended that the Company’s cannabis and alcohol impairment detection tools will be used across various workplaces and by law enforcement agents. Its technology uses facial and voice recognition to identify both cannabis and alcohol impairment by utilizing multiple features along with numerous different data points. Testing does not require any body fluids or human intervention, thereby helping to remove human error and the potential for discrimination and prejudice.

The Company is also developing AI based screening for the healthcare industry. The recent advent of COVID-19 pandemic has placed unprecedented stress on the global economy and highlights the need for tools to help screen mass populations for infectious diseases, with the hope of preventing pandemics in the future. In turn, Predictmedix Inc. is expanding its proprietary AI technology to screen for infectious diseases for identification of symptomatic individuals.

Additionally, psychiatric disorders such as depression, dementia and Alzheimer’s disease can carry a significant burden and early identification is the key to better management. To help address

this, the Company is also expanding its proprietary AI technology to screen for psychiatric and/or brain disorders such as depression, dementia and Alzheimer's disease. To find out more visit us at www.predictmedix.com
