

Silver Bullet Mines Seeks to Extend Warrants

written by Raj Shah | January 30, 2023

January 30, 2023 ([Source](#)) – Silver Bullet Mines Corp. (TSXV: SBMI) (OTCQB: SBMCF) ('SBMI' or 'the Company') announces it is applying to the TSX Venture Exchange to extend all warrants related to the Company's \$0.30 round of financing (the "Warrants"). The Warrants have a two-year term, are exercisable at \$0.50 (fifty cents) and were issued in various tranches from February 6, 2021 to July 8, 2021.

The Company is seeking regulatory approval to extend all Warrants for one additional year from their original expiry dates.

With respect to the Arizona mining and milling operations, SBMI expects to be able to make further disclosure within two weeks.

Cautionary and Forward-Looking Statements

This news release contains certain statements that constitute forward-looking statements as they relate to SBMI and its

subsidiaries. Forward-looking statements are not historical facts but represent management's current expectation of future events, and can be identified by words such as "believe", "expects", "will", "intends", "plans", "projects", "anticipates", "estimates", "continues" and similar expressions. Although management believes that the expectations represented in such forward-looking statements are reasonable, there can be no assurance that they will prove to be correct.

By their nature, forward-looking statements include assumptions, and are subject to inherent risks and uncertainties that could cause actual future results, conditions, actions or events to differ materially from those in the forward-looking statements. If and when forward-looking statements are set out in this new release, SBMI will also set out the material risk factors or assumptions used to develop the forward-looking statements. Except as expressly required by applicable securities laws, SBMI assumes no obligation to update or revise any forward-looking statements. The future outcomes that relate to forward-looking statements may be influenced by many factors, including but not limited to: the impact of SARS CoV-2 or any other global pathogen; reliance on key personnel; the thoroughness of its QA/QA procedures; the continuity of the global supply chain for materials for SBMI to use in the production and processing of mineralized material; shareholder and regulatory approvals; activities and attitudes of communities local to the location of the SBMI's properties; risks of future legal proceedings; income tax matters; fires, floods and other natural phenomena; the rate of inflation; availability and terms of financing; distribution of securities; commodities pricing; currency movements, especially as between the USD and CDN; effect of market interest rates on price of securities; and, potential dilution. SARS CoV-2 and other potential global pathogens create risks that at this time are immeasurable and impossible to define.

The Issuer has not based its production decision on current resources or the results of a pre-feasibility study of mineral resources to establish mineral reserves demonstrating technical and economic viability. Significant uncertainty exists on the presence of any economic mineable material.
