

Siyata Mobile Receives \$700,000 Purchase Order For Single End-Use Customer To Equip Mobile Workforce and Vehicle Assets

written by Igor Makarov | July 17, 2019

July 17, 2019 (Source) – Siyata Mobile Inc. (the “Company” or “Siyata”) (TSX-V:SIM / OTCQX:SYATF) is pleased to announce that it has received a \$700,000 purchase order from a single end-use customer to equip their mobile workers and

vehicles assets with [UR7 rugged handsets](#) and [CP250 in-vehicle device](#) for a national railway company.

Marc Seelenfreund, CEO and Chairman of Siyata Mobile, mentions, “This is another major win for Siyata, and demonstrates our ability to deliver large scale contracts with leading cellular carriers and their end use customers in various verticals of the market. Push-to-Talk Over Cellular is the next generation of instant communication for the enterprise workforce as its nationwide coverage and data applications make it a much more cost effective and robust solution for a workplace with greater efficiency.”

The 4G/LTE PTT devices will allow the customer to benefit from a variety of key features and services for smooth and efficient operations, while eliminating the barriers between devices, networks and locations. This enables crystal clear communication

between workers of different mediums at the push of a button and allows them to seamlessly share voice, text, photos, videos and more with a group or an individual all from one PTT application on the UR7 and CP250.

About Siyata

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Since developing the world's first 3G connected vehicle device, Siyata has been a pioneer in the industry, launching the world's first 4G LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all sizes in Canada, the U.S., Europe, Australia, and the Middle East.
