Tango Tango, a FirstNet Certified™ Application and Service Provider, Partners with Siyata Mobile

written by Raj Shah | December 11, 2019

December 11, 2019 (Source) – Siyata Mobile Inc. (the "Company" or "Siyata") (TSX-V:SIM / OTCQX:SYATF) is pleased to announce that Tango Tango, a FirstNet Certified™ Push-to-Talk application and communications service provider, has partnered with Siyata to offer the Uniden® UV350 dedicated in-vehicle device to its first responder customers in the United States.

Tango Tango uses advanced networking, mobile and cloud technologies to leverage LTE and WiFi networks and expand the radio coverage and capabilities of public safety agencies. With the Tango Tango application, smart devices can integrate with any existing radio system, creating seamless interoperability across agencies, regardless of carrier. Tango Tango allows users real-time, two-way communication on any authorized channel, on any device and sends messages to both radios and smartphones.

"We are excited to work with Siyata and are eager to see the lasting positive impact that this partnership will have on our public safety customers and the school systems we serve across the country," says Tango Tango CEO Phil Kovacs. "Partnering with an industry pioneer like Siyata to better help our First Responders is a great opportunity for Tango Tango, especially as we are expanding in the coming year.”

Public safety agencies and commercial vehicle drivers have been propelling the success of Tango Tango, after seeing increased success in limitless communications. Today, over 200 agencies in the U.S. are using the Tango Tango app, and will now have direct access to the Uniden UV350 through Tango Tango, a company they know and trust.

Marc Seelenfreund, CEO of Siyata Mobile states, “Tango Tango and Siyata are aligned when it comes to providing a safer, more seamless way for commercial vehicle drivers and public safety professionals to communicate. Adding this sales channel is extremely exciting for us, as we are partnering with a company that has already seen dramatic success with police forces, first responders and commercial vehicle drivers across the U.S.”

The Uniden® UV350 is the world’s first LTE in-vehicle communications device with a Push-to-Talk Over Cellular (PoC) function, crystal-clear sound for voice calls, Android data applications, and more. This device was built and designed to minimize excessive clutter often found in commercial vehicles by incorporating the functions of multiple devices into one. The carrier-grade PoC network allows drivers to have nationwide seamless communication between one another at the push of a button, ensuring safe communication for professional drivers in the paving and construction industry.

About the Uniden UV350

- LTE high speed data
- 5.5” widescreen LED display for easy monitoring
- Dedicated microphone and speaker for crystal-clear extra loud sound quality
- In-vehicle installation ensures device is always powered by the vehicle’s battery

- Extended cellular and GPS coverage with external antenna included
- Push-to-Talk Over Cellular (PoC) ensures instant communication at the push of a button

The UV350 is the first 4G/LTE all-in-one in vehicle fleet communication device that delivers crystal clear cellular voice calls, Push-to-Talk Over Cellular, data applications and more. This device was designed specifically for commercial vehicles ensuring safer communication for professional drivers.

About Siyata
A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Siyata has been a pioneer in the industry, launching the world’s first LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular,

data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all sizes in Canada, the U.S., Europe, Australia, and the Middle East.
