

Zentek Announces Opening of its Industrial Scale ZenGUARD (TM) Production Facility in Guelph, Ontario

written by Igor Makarov | May 26, 2022

May 26, 2022 ([Source](#)) – Zentek Ltd. (“Zentek” or the “Company”) (NASDAQ:ZTEK)(TSXV:ZEN), an intellectual property development and commercialization company, is pleased to announce the grand opening of its industrial scale ZenGUARD™ antimicrobial production facility in Guelph, Ontario on Friday June 17th, 2022, at 2:00 pm. This facility is one of the largest nanomaterials-based manufacturing facilities in the world.

“The opening of this facility is an important milestone for our company as it represents our successful journey from the lab, through regulatory and now to industrial commercialization. I would like to personally thank all our employees and vendor partners who put in considerable time and effort to make this happen,” said Greg Fenton, CEO of Zentek. “We’re now ready to begin meeting the growing interest and demand for our ZenGUARD™ coating.”

ZenGUARD™ is the Company’s patent-pending coating shown to have 99% antimicrobial activity providing for significantly enhanced viral and bacterial filtration efficiency. While the Company’s immediate focus is on transmission prevention, through sales of ZenGUARD™ coated masks, Zentek continues to develop other opportunities including in the heating, ventilation, and air conditioning (HVAC) market for revenue generation using this nanotechnology.

To attend the in-person event to celebrate the facility's Grand Opening on June 17th, 2022, at 2:00PM EST, please register here: <https://forms.office.com/r/ZPy20CTtiH>. The company does have capacity limits at the facility and only those who receive a confirmation will be able to attend.

About Zentek Ltd.

Zentek is an IP development and commercialization company focused on next-gen healthcare solutions in the areas of prevention, detection, and treatment. Zentek is currently focused on commercializing ZenGUARD™, a patent-pending coating shown to have 99% antimicrobial activity, including against COVID-19, and the potential to use similar compounds as products against infectious diseases. The Company also has an exclusive agreement to be the global exclusive commercializing partner for a newly developed aptamer-based rapid pathogen detection technology.
