

Beryllium: a Key Asset in TRER's Rich Round Top Project

May 2, 2103 – John Tumazos, President, Chairman, Texas Rare Earth Resources Corp. (OTCQX: TRER) in an interview with Dave Glover for ProEdgeWire (ProEdgeWire.com) describes the characteristics of the Round Top

project in Hudspeth County, Texas. John states “There’s a high enriched uranium zone and beryllium zone, which we believe is the richest beryllium resource in the world.” For the balance of 2013 Texas Rare Earth Resources will be focusing “...rigorously engineering our process.”

Texas Rare Earth Resources Corp. (TRER) is a U.S.-based minerals company engaged in the exploration and development of critical rare earth elements and in the pursuit of precious metals opportunities.
