

# Siyata Mobile Begins Integrating Uniden(R) UV350 Functionality with U.S. Automobile Manufacturer

September 16, 2019 ([Source](#)) – [Siyata Mobile Inc.](#) (“Siyata”) (TSX-V:SIM / OTCQX:SYATF) is pleased to announce the Company has commenced integration with certain commercial vehicles of one of the largest automobile manufacturers in

the United States for drivers to operate their [Uniden\(R\) UV350](#) device through the control panels of the commercial fleet vehicles.

The integration is geared towards providing commercial vehicle drivers increased functionality, crystal clear sound quality, with fewer hardware accessories inside the vehicle cabin, allowing drivers to keep their eyes on the road and hands on the wheel.

Marc Seelenfreund, CEO of Siyata Mobile, commented, “The UV350, being a one of a kind, dedicated in-vehicle LTE cellular device, puts us in a very unique position to build partnerships aimed at creating revenue growth and shareholder value. We continue to advance further partnerships to corner this market opportunity while building on our efforts to become the world’s largest in-vehicle cellular vendor.”

## About the UV350

- LTE high speed data
- 5.5” widescreen LED display for easy monitoring
- Dedicated microphone and speaker for crystal-clear extra

loud sound quality

- In-vehicle installation ensures device is always powered by the vehicle's battery
- Extended cellular and GPS coverage with external antenna included
- Push-to-Talk Over Cellular (PoC) ensures instant communication at the push of a button

### **About the Uniden UV350**

The Uniden® UV350 is the first LTE all-in-one in vehicle fleet communication device that delivers crystal clear cellular voice calls, Push-to-Talk Over Cellular, data applications and more. This device was designed specifically for commercial vehicles ensuring safer communication for professional drivers.

### **About Siyata**

A TSX Venture Top 50 Company, Siyata Mobile Inc. is a leading global developer and provider of cellular communications systems for enterprise customers, specializing in connected vehicle products for professional fleets, marketed under the Uniden® Cellular brand. Since developing the world's first 3G connected vehicle device, Siyata has been a pioneer in the industry, launching the world's first 4G LTE all-in-one fleet communications device in 2017. Incorporating voice, push-to-talk over cellular, data, and fleet management solutions into a single device, the company aims to become the connected vehicle communications device of choice for commercial vehicles and fleets around the world.

Siyata also offers rugged phones for industrial users and signal boosters for homes, buildings, and fleets with poor cell coverage. Siyata's customers include cellular operators, commercial vehicle technology distributors, and fleets of all

sizes in Canada, the U.S., Europe, Australia, and the Middle East.
