

# Siyata's Glenn Kennedy on addressing the communication needs of commercial fleet vehicles in North America

"The market that we are addressing is specifically for commercial fleet vehicles. Throughout North America, there are approximately 17 million commercial fleet vehicles that are on the road. We think we have a solution that is new, that is unique, that is in demand both by the customers who are operating these vehicles and also by the cellular wireless carriers both in the US and Canada." States Glenn Kennedy, Vice President of Sales at [Siyata Mobile Inc.](#) (TSXV: SIM | OTCQX: SYATF), in an interview with InvestorIntel's Tracy Weslosky.

Glenn went on to provide an update on Siyata's deal with AT&T. He said that Siyata had its device certified and ready for sale with AT&T in the month of June of 2019. The company received its first US purchase order from a customer to equip their fleet of yellow school buses. He added that Siyata has a robust sales pipeline of other opportunities with AT&T customers who are looking at Siyata's technology because they can't get a solution like that from anyone else.

# Glenn Kennedy on Siyata Mobile's strong sales pipeline following a deal with AT&T

"We have recently signed a deal with AT&T and we think that is going to lead to some great sales opportunities down the road. We are working with other wireless carriers too. We are at a tipping point for our company." States Glenn Kennedy, Vice President of Sales at [Siyata Mobile Inc.](#) (TSXV: SIM | OTCQX: SYATF), in an interview with InvestorIntel's Tracy Weslosky.

Glenn further added that in the United States a special network called FirstNet was created for First Responders (police officers, ambulance, firemen) to communicate in case of emergencies. Siyata's products have been created so that they can work on this special network and there are very few products in the market that can do that. He also said that the company is forecasting strong sales growth quarter over quarter and year over year. As Siyata has now made some carrier launches and is working on other carrier launches too, the company sees a strong sales pipeline.

# Alt 5 Sigma's Taras Kulyk on making trading with cryptocurrencies safe and secure

"We are a digital asset (cryptocurrency) management platform. We are a way for existing players to have a safe way for their clients to gain exposure. Everything is tracked. There are no AML or KYC issues with our clients. We know who they are, we know their use of proceeds. We are essentially trying to be aboveboard on compliance and transparency...We are revenue positive and are looking to ramp up with the raise we are doing." States Taras Kulyk, President and Chief Operating Officer of [Alt 5 Sigma, Inc.](#), in an interview with InvestorIntel's Tracy Weslosky.

Taras went on to discuss that Alt 5 Sigma has partnered with top tier professional players in cryptocurrency management space to provide its clients a safe and secure environment to trade cryptocurrencies. Taras further added that Alt 5 Sigma is fully insured and is fully compliant in Canada. The company is working on the U.S. compliance ecosystem.

# Peekaboo Beans' Traci Costa on reinventing retail in children's fashion

"We are changing the face of children's fashion by cutting through the noise and creating a movement towards slow fashion in which we are making high-quality clothing for kids and selling it through a disruptive model in which we can empower women to be able to sell our product and engage kids in a trans-media augmented reality experience. Its all about creating good quality product that is staying out of the landfills, we are selling through disruption and we are engaging in a whole new way. It is reinventing retail." States Traci Costa, President and CEO of [Peekaboo Beans Inc.](#) (CSE: BEAN | OTCQB: PBBSF), in an interview with InvestorIntel's Tracy Weslosky.

Traci went on to provide an update on the company's new trans-media subscription box. She said that the subscription box is an engagement strategy which will take the company's marketing spend and turn it into a monthly revenue generating model. Traci also provided an update on Peekaboo Beans' resale market online portal. The company aims to create a circular economy by buying back Peekaboo Beans' products and reselling through a secondary market thus keeping the products out of the landfill and encouraging sustainability.

# Jim Payne on dynaCERT's award-winning carbon emission reduction technology for diesel engines

“There are no real competitors close to where we are with our technology. The Company has been trying to do this for fifteen years. We have spent 50 million dollars in 15 years to perfect this. What we actually do is we produce pure hydrogen and pure oxygen on-demand through a very unique electrolysis system. More importantly, our system is so fully computerized, it is like a smartphone, it is learning all the time. It is learning driving habits, it is learning the terrain, it is learning the altitude, climate, and everything, so it is altering the flow of gas to optimize the burn. We are a catalyst, we are not fuel. We optimize the burn, by doing that we give an average of 10-15% increase in fuel economy and more importantly reduce emissions by north of 50%...” States Jim Payne, CEO and President of [dynaCERT Inc.](#) (TSXV: DYA | OTCQB: DYFSF), in an interview with InvestorIntel's Tracy Weslosky.

Jim went on to discuss dynaCERT's recent purchase order for 100 HydraGEN™ units destined for trucking in Mexico from KarbonKleen LLC. He said that the 100 unit order is expected to be a precedent for a potential exponentially larger market in Mexico of up to 1 million more HydraGEN™ units. Jim also discussed dynaCERT winning two major awards in Germany. dynaCERT recently received the prize for Energy Solutions in 2019 in the Business-to-Business category at the German Innovation Awards competition and received the Gold Certificate Award from The European Society for Quality Research in Germany.

## **Dr Ian Flint on the ‘real’ graphene market**

Dr. Ian Flint in an interview with InvestorIntel’s Tracy Weslosky discusses what is ‘real’ in the graphene market. Debunking many of the myths related to graphene usage, he explains that the space elevator discussion, while doable is at least a hundred years away from fruition. He said that though graphene has the potential to help construct space elevators or make fighter jets undetectable by radars, we currently do not have the technology to achieve these goals. Ian also talked about some of the exciting applications that are real for graphene currently and highlights what investors should be reviewing. He discusses graphene membranes, for instance as surface coatings because of graphene’s heat and electric conductivity properties and as an additive in various composites. He claims used for water desalination will be ready for commercialization in the next year.
