Stephen Burega of Appia Provides Updates on Advancing its Rare Earths Projects in Canada and Brazil

written by InvestorNews | May 17, 2023

In this InvestorIntel interview, Byron W King talks with Appia Rare Earths & Uranium Corp.'s (CSE: API | OTCQX: APAAF) President Stephen Burega about the completion of due diligence to acquire a rare earths ionic clay project in Brazil. Situated in a mining-friendly jurisdiction, accessible by road, with several mining operations nearby, Stephen says that the project's mineralogy is similar to that of Serra Verde which has one of the largest ionic clay deposits outside of China.

Highlighting the expertise of their consulting geologist, Don Hains, who wrote the NI 43-101 report for Serra Verde, Stephen discusses how a positive evaluation from Don reinforced their excitement and confidence in the project.

Stephen also provides an update on Appia's flagship Alces Lake Rare Earths (REE) Property in Northern Saskatchewan where they have a work program scheduled to start in June on the highest-priority areas of a major structural corridor.

Stephen also indicates that the Company has approximately C$7 million in the bank with C$3 million dedicated to the Alces Lake project and C$1 million earmarked for the Brazil project once the due diligence is completed.

About Appia Rare Earths & Uranium Corp.

Appia is a publicly traded Canadian company in the rare earth element and uranium sectors. The Company is currently focusing on delineating high-grade critical rare earth elements and gallium on the Alces Lake property, as well as exploring for high-grade uranium in the prolific Athabasca Basin on its Loranger, North Wollaston, Eastside, and Otherside properties. The Company holds the surface rights to exploration for 113,837.15 hectares (281,297.72 acres) in Saskatchewan. The Company also has a 100% interest in approximately 12,545 hectares (31,000 acres), with rare earth element and uranium deposits over five mineralized zones in the Elliot Lake Camp, Ontario.
