In this episode of InvestorIntel's **Critical Minerals Corner with Jack Lifton**, Jack talks about President Biden's American Jobs Plan which details how the United States government is going to spend nearly \$2 trillion on infrastructure, alternate energy, and creating millions of good-paying jobs.

The Plan proposes a \$174 billion investment to win the EV market by enabling automakers to spur domestic supply chains from raw materials to parts, retool factories to compete globally, and support American workers to make batteries and EVs.
