

# **Investor.Coffee (10.03.2023) : Canadian futures mirror global sentiment**

written by InvestorNews | October 3, 2023

Canadian futures are mirroring global sentiments, dipping lower due to hawkish comments from Federal Reserve officials which spurred U.S. bond yields and sent global stocks on a downward trend. Gold too, followed this trend with losses, while the U.S. dollar solidified its position, even as oil prices slipped amid mixed supply signals.
