

# Dr. Charles Meakin on the benefits of StageZero Life Sciences early diagnostic cancer test

written by InvestorNews | June 17, 2021

In a recent InvestorIntel interview, Tracy Weslosky speaks with Dr. Charles Meakin, Chief Medical Officer at [CareOncology.com](https://www.careoncology.com) on how [StageZero Life Sciences Ltd.](https://www.stagezero.life)'s (TSX: SZLS) early diagnostic cancer test will enhance the cancer treatment program that the Health Clinics offer their patients.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Dr. Meakin went on to say that Care Oncology has developed a cancer treatment protocol that uses medicines that show 2-3 times increase in average median survival in cancer patients. He added, "We have treated over 5000 patients...our platform is very efficient and 80% of our patients re-enlist..." StageZero has developed the Aristotle® test which can simultaneously screen for 10 cancers from a single sample of blood with high sensitivity and specificity for each cancer. Dr. Meakin explained how StageZero and Care Oncology together can benefit cancer patients by combining early cancer diagnostics of StageZero and the cancer treatment protocol of Care Oncology.

## About Health Clinics

Founded in London, England in 2013, Health Clinics specialises in chronic inflammation and metabolic dysfunction and uses

telemedicine to provide specialist clinical services across Europe and North America. HC provides two main clinical offerings:

1. Under the trade name Care Oncology Clinic (“COC”), HC provides a patented and safe adjunctive treatment for all cancer types;
2. Under the trade name AVRT (pronounced “avert”), HC clinicians will provide a managed clinical service to help people to reduce their risk of developing chronic diseases, including cancer, using a proportionate and tolerable protocol.

### **About StageZero Life Sciences, Ltd.**

StageZero Life Sciences is dedicated to the early detection of multiple diseases through whole blood tests. The Company’s next-generation test, Aristotle®, is the first-ever multi-cancer panel for simultaneously screening for 10 cancers from a single sample of blood with high sensitivity and specificity for each cancer. StageZero’s full service, telehealth platform includes access to physicians and phlebotomists who can prescribe and draw samples for individuals and groups, and the Company operates a CAP accredited and CLIA certified high-complexity reference laboratory in Richmond, Virginia. In addition, leveraging its specialty in polymerase chain reaction (PCR) testing for the early identification of cancer through blood, StageZero also provides both COVID PCR testing (swab and saliva) and blood test analysis (Antibody testing).

# StageZero's New Cancer-Testing Platform and Health Clinics Acquisition Forms Telemedicine "Circle of Care"

written by InvestorNews | June 17, 2021

[StageZero Life Sciences Ltd.](#) (TSX: SZLS) is a life science and telehealth company that recently [launched](#) Aristotle®, which is its next-generation, proprietary clinical test for the early detection of cancer. From one blood sample, it can screen for 10 cancers.

On the same day as it officially launched Aristotle®, StageZero announced that it entered into a [Letter of Intent](#) (LOI) to purchase Health Clinics Limited and Health Clinics USA Corp. (together, the "HC Companies").

Founded in London, England in 2013, the HC Companies use telemedicine to provide clinical services across Europe and North America.

Under the trade name Care Oncology Clinics, the HC Companies offer cancer (oncology) treatment services and, under the trade name AVRT, focus on early disease detection utilizing proprietary treatments.

James Howard-Tripp, Chairman and CEO of StageZero, explained the rationale behind the transaction,

"Together with Health Clinics, we are taking three of the highest growth areas within healthcare – liquid biopsy, early detection of disease and telemedicine – and combining them into one innovative company that with ground-breaking technology,

will find disease early (as opposed to late and with presentation of symptoms), diagnose and treat, or diagnose and seek to prevent late stage disease, with a telemedicine reach in both North America and the UK/Europe.”

According to market research by Fortune Business Insights, the Telehealth market is estimated to be US\$559 billion by 2027 and Reports & Data estimates the Early Disease Detection market to be worth US\$115 billion by 2027.

The continued rise of cancer cases and deaths has shifted the attention towards the adoption of early detection and diagnosis techniques for cancer, to help lower health costs and increase survival rates.

### **StageZero – From Point Solution to Circle of Care**

With the COVID-19 pandemic, many physician practices are closed, so patients are not visiting their doctors in person but are connecting via telehealth.

To illustrate the dramatic decrease, according to an [article](#) last month by the **National Cancer Institute**, the COVID-19 pandemic led to a sharp decrease in the number of cancer screening tests. One example from **Massachusetts General Brigham Hospital** recorded a 74% decrease in cancer screening tests during the same 3-month period in 2019 (pre-pandemic) versus 2020.

Unlike COVID-19 tests, cancer tests in the U.S. have to be prescribed by a physician. Therefore StageZero needed to find a way to reach patients with doctor support.

The HC Companies acquisition immediately filled this requirement and more, as it provides an existing network of physicians as well as patients, a marketing group, and a 24/7 support team.

StageZero believes that launching Aristotle via AVRT will have a bigger impact than trying to launch a stand-alone cancer-detection service and positions it uniquely in the market.

In addition, the Company commented that the release of Aristotle® via AVRT is just the first step and StageZero will continue to develop a broader market for the product including physician networks, health care insurance providers, and employers.

StageZero's new cancer-testing platform Aristotle® becomes integrated with HC Companies' AVRT service. The AVRT program focuses on finding diseases early, notably cancer, and then would work with the primary care physicians and oncologists of HC Companies' Care Oncology Clinics to establish appropriate treatment.

Therefore StageZero will have a fully integrated telehealth platform that supports both its cancer diagnostics program as well as treatment services – creating the “Circle of Care” – and now multiple revenue streams.

### **Lab Expansion for COVID-19 and Aristotle® Testing**

StageZero continues to expand its CAP-accredited and CLIA certified high complexity reference laboratory in Richmond, Virginia. Being CAP-accredited and CLIA certified ensures that the testing facilities and test results are meeting or exceeding the industry standards for clinical laboratory testing.

Last year, to help out during the COVID-19 crisis, StageZero launched a COVID-19 testing service, offering both the serology point-of-care and lab-based polymerase chain reaction (PCR) tests.

The Company's revenue benefited from offering various COVID-19 tests as fourth-quarter 2020 results released last month had revenue at US\$2.6 million, up 77% quarter-over-quarter and up over 5,000% from the same period last year.

StageZero forecasted that COVID-19 testing-related revenue should be even higher in the first quarter of 2021.

### **Expanded Testing in Canada with Ichor Blood Services**

Yesterday, StageZero [announced](#) that its partner Ichor Blood Services will distribute StageZero's COVID-19 PCR saliva test kits through Canadian retail outlets in British Columbia, Alberta, Saskatchewan, Manitoba, and Ontario starting immediately.

James Howard-Tripp commented: "StageZero is proud to make these kits available to Canadians to enable immediate and convenient PCR testing, at home, via supervised telehealth, for families, companies, and travelers. COVID-19 PCR testing is considered the gold standard for helping to determine if someone is infected with SARS-CoV-2, the virus that causes COVID-19, and saliva-based PCR testing is an easy, non-invasive way to collect a sample".

### **Final Thoughts**

The recent C\$7.2 million financing has strengthened the Balance Sheet and revenue from the COVID-19 testing brings additional cash flow that should enable the Company to meet its current obligations, complete the HC Companies acquisition, and

commercialize its new offering.

StageZero should continue to benefit from the market's shift to telehealth and book revenue growth from its COVID-19 testing service and product offering.

With the growing need for both COVID-19 and cancer testing, revenue could double for the Company this year.

StageZero closed today at C\$0.77, up 22% on the day, and currently has a Market Cap of over C\$41.2 million.

## StageZero Life Sciences James Howard-Tripp on the recent LOI to Acquire Health Clinics Limited

written by InvestorNews | June 17, 2021

In a recent InvestorIntel interview, Tracy Weslosky spoke with James Howard-Tripp, Chairman and CEO of [StageZero Life Sciences Ltd.](#) (TSX: SZLS) about StageZero's Q4 and Year End [Financial Results](#) and the recent signing of a [letter of intent](#) to acquire Health Clinics Limited.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), James went on to say that StageZero ended Q4 with revenues that were up two times from Q3. He further added that the Health Clinics deal will give StageZero access to a network of

oncologists and cancer clinics. This will provide StageZero access to an existing patient network to which Aristotle may be administered to. Aristotle® is a multi-cancer panel for simultaneously screening for 10 cancers from a single sample of blood with high sensitivity and specificity for each cancer.
