

John Kontak on West Red Lake Gold Mines and the impact of COVID-19 on Gold Market Sentiment

written by InvestorNews | May 31, 2020

“The main macroeconomic factors that create a positive global environment (for gold sector) include negative real interest rates, increasing money supply and increasing budget deficits and national debts...in general, it is positive for the gold sector.” States John Kontak, President and Director of [West Red Lake Gold Mines Inc.](#) (CSE: RLG | OTCQB: RLGMF), in an interview with InvestorIntel’s Tracy Weslosky.

John went on to say that West Red Lake Gold intends to take advantage of the positive gold sentiment and be busy with their property in Red Lake Gold District of Northwest Ontario, Canada. John continued, “We have a high-grade deposit with an inferred resource of 7.57 grams per ton at the Rowan Mine deposit. It is 1.1 million ounces of gold all within 500 meters of surface...with experienced management like ourselves at West Red Lake Gold Mines in well developed mining jurisdiction and mining camp like Red Lake, Ontario – these assets are going to be outperforming over the next two to three years.”
