

Darren Hazelwood, CEO, of Panther Metals PLC discusses the upside of his mineral exploration company

In a recent InvestorIntel interview, Tracy Weslosky spoke with Darren Hazelwood, CEO of Panther Metals PLC (LSE: PALM) about discovering a VMS, Volcanic Massive Sulfide, mineral system at Panther's Obonga Project in Ontario and about how they are creating shareholder value in base, precious and energy metals through their extensive international network.

In this InvestorIntel interview, which may also be viewed on YouTube (click here to subscribe to the InvestorIntel Channel), Darren Hazelwood provided an update on the listing of Panther Metals' Australian subsidiary on the ASX to drive forward its gold, nickel, and cobalt projects in Australia. Highlighting the upside potential of a mineral exploration company, Darren explained how Panther Metals is unlocking the potential of its prospects via targeted drilling led by a geological team with a proven track record in making discoveries.
