

# Darren Townsend on applying for a rare earths mining license

Darren Townsend, Managing Director of Peak Resources Ltd. (ASX: PEK) (“Peak Resources”) in an interview with InvestorIntel Senior Editor, Peter Clausi discuss Peak Resources neodymium and praseodymium rare earth Ngualla project. Located in Tanzania, the Ngualla project is being developed to be a low cost next generation rare earth project with a product suite that is aligned to the high value and expanding magnet metal market. Darren states that Peak Resources has finished their bankable feasibility study and “are in the process of applying for a mining license in Tanzania” and rare earths in the electric vehicle market...to access the complete interview, [click here](#)
