The recent eResearch Industry Report titled Roll-Up Strategies in the Canadian ICT Industry; Your Guide to Understanding and Investing in M&A-Focused Public Companies offers a comprehensive analysis of the Mergers and Acquisition (M&A) strategies in the Canadian Information and Communication Technology (ICT) sector. This sector, pivotal in modern business and society, includes key components like cybersecurity, data management, and telecommunications. Despite challenges posed by COVID-19, the global ICT industry remained resilient, with estimated worldwide spending reaching US\$4.8 trillion in 2023. The Canadian ICT sector, in particular, is expected to generate \$270 billion in revenues in 2023, marking a 5% annual growth.
