

Glenn Kennedy on Siyata Mobile's strong sales pipeline following a deal with AT&T

written by InvestorNews | September 11, 2019

"We have recently signed a deal with AT&T and we think that is going to lead to some great sales opportunities down the road. We are working with other wireless carriers too. We are at a tipping point for our company." States Glenn Kennedy, Vice President of Sales at [Siyata Mobile Inc.](#) (TSXV: SIM | OTCQX: SYATF), in an interview with InvestorIntel's Tracy Weslosky.

Glenn further added that in the United States a special network called FirstNet was created for First Responders (police officers, ambulance, firemen) to communicate in case of emergencies. Siyata's products have been created so that they can work on this special network and there are very few products in the market that can do that. He also said that the company is forecasting strong sales growth quarter over quarter and year over year. As Siyata has now made some carrier launches and is working on other carrier launches too, the company sees a strong sales pipeline.
