

Dev Randhawa provides an update on Fission 3.0 and discusses uranium and sustainability

written by InvestorNews | April 14, 2022

In a recent InvestorIntel interview, Tracy Weslosky interviews [Fission 3.0 Corp.](#)'s (TSXV: FUU | OTCQB: FISOF) Chairman and CEO Dev Randhawa regarding an update on the Company's 16 projects in the Athabasca Basin region of Saskatchewan, Canada. The Athabasca Basin has the highest-grade uranium deposits in the world.

In the interview, which may also be viewed on the InvestorIntel YouTube channel ([click here to subscribe](#)), Dev Randhawa comments on the current 4,000m seven hole winter [drill program](#) on its 100% owned Patterson Lake North (PLN) project in the southwest Athabasca Basin region. Dev discusses his team's history of exploration success and how they are working towards having a third success with Fission 3.0. Dev shares his views on the current uranium market which is running hot right now. He discusses the need for strong uranium long-term contract pricing and the possibility of Sprott Physical Uranium Trust becoming listed on the NYSE. He also discusses the implications of sanctioning Russian sourced uranium due to the Russian invasion of Ukraine.

Dev gives a most interesting interview which is well worth watching. To watch the full interview, [click here](#)

[About Fission 3.0 Corp.](#)

Fission 3.0 Corp. is a uranium project generator and exploration company, focusing on projects in the Athabasca Basin, home to some of the world's largest high-grade uranium discoveries. Fission 3.0 currently has 16 projects in the Athabasca Basin. Several of Fission 3.0's projects are near large uranium discoveries, including the Arrow, Triple R and Hurricane deposits.

Fission 3.0's Dev Randhawa on the Uranium Boomlet

written by InvestorNews | April 14, 2022

In a recent InvestorIntel interview, Peter Clausi spoke with Dev Randhawa, Chairman and CEO of [Fission 3.0 Corp.](https://www.fission3.com) (TSXV: FUU | OTCQB: FISOF) about the current upward trend in the uranium price and about Fission 3.0's portfolio of 18 highly prospective properties in Canada's prolific Athabasca Basin.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Randhawa highlighted the effect that the US administration's focus on uranium as a source of baseload electricity, without any carbon footprint, is having on the uranium market, and uranium's role in the electric vehicle revolution. In the interview, he also talked about the upside potential for investors in Fission 3.0's project discoveries and the team's success in two discoveries in the past. Randhawa also provided

an update on the closing of Fission's recent [private placement](#).

Dev Randhawa on Fission 3.0 and why ESG Investors are Looking at Uranium

written by InvestorNews | April 14, 2022

In a recent InvestorIntel interview, Peter Clausi speaks with Dev Randhawa, Chairman and CEO of [Fission 3.0 Corp.](https://www.fission30.com) (TSXV: FUU | OTCQB: FISOF) about the rising market interest in uranium and exploring for uranium in Canada's Athabasca Basin, the world's leading source of high-grade uranium.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Dev went on to say how Fission 3.0 has been able to stake a portfolio of near-surface high-grade uranium assets in close proximity to other major uranium discoveries. Led by the team

that founded Fission Uranium Corp. (TSX: FCU | OTCQX: FCUUF) and made the Patterson Lake South (PLS) high-grade uranium discovery, Dev said that Fission 3.0 has significant insider ownership which aligns the management's interest with that of the shareholders. Dev also highlighted the uranium supply deficit and the rising interest in the sector. He added, "...it is the only energy that is carbon-free, has no footprint yet can provide baseload power."
