

Edward Gosselin on the potential of Kobo Resources as a pivotal player in the gold-rich grounds of West Africa

written by InvestorNews | March 19, 2024

In a comprehensive discussion at PDAC 2024, Edward Gosselin, CEO, Director, and Corporate Secretary of [Kobo Resources Inc.](#) (TSXV: KRI), shed light on the company's strategic objectives and its recent advancements in gold exploration within Côte d'Ivoire, one of West Africa's most prolific and developing gold districts, hosting several multi-million-ounce gold mines. Gosselin elucidated the company's primary mission of showcasing their venture to prospective investors and operating companies, aiming to augment their capital for an expanded drill program. Emphasizing the concept of "closeology play," Gosselin stated, "We're less than 9 km away from one of the region's largest gold mines with established processing facilities...it's a no-brainer." This strategic proximity underscores Kobo's leverage in logistics and geological similarity, making it an attractive Brownfield project.

Kobo Resources Inc., with its 100%-owned Kossou Gold Project located near the capital city of Yamoussoukro and adjacent to the substantial Yaouré mine operated by [Perseus Mining Limited](#) (ASX: PRU | TSX: PRU), is poised for growth. The company's focus on the Kossou Gold Project aims to delineate the potential size and scale of the discovery within a 9+ km strike length of highly prospective gold in soil geochemical anomalies. The completion of approximately 6,000 meters of RC drilling and 5,400 meters of trenching in 2023, with plans for further

exploration in 2024, highlights significant gold mineralization within a potentially large mesothermal gold system. Christopher Ecclestone underscores the project's strategic positioning in another [InvestorNews interview](#) with: "If Kobo strikes gold in commercial quantities, they're going to be sort of a natural prey for Perseus to move upon to provide Perseus with extended mine life with Yaouré."

The Kossou Gold Project's promising initial exploration results and the upcoming Phase 2 Diamond Drilling in March 2024 signal the project's vast potential. With a keen emphasis on rigorous exploration and the allure of significant gold anomalies, Kobo Resources Inc. represents a compelling investment opportunity, underscored by a seasoned leadership team with extensive in-country experience. The company's strategic location and exploration prowess underscore its potential as a pivotal player in the gold-rich grounds of West Africa.

About Kobo Resources Inc.

Kobo Resources is a growth-focused gold exploration company with a compelling new gold discovery in Côte d'Ivoire, one of West Africa's most prolific and developing gold districts. The Company's 100%-owned Kossou Gold Project is located approximately 20 km northwest of the capital city of Yamoussoukro and is directly adjacent to one of the region's largest gold mines with established processing facilities.

The Company is drilling to unlock the potential size and scale of Kossou within 9+ km strike length of highly prospective gold

in soil geochemical anomalies with excellent rock and trench sampling results. The Company completed ~6,000 m of RC drilling and ~5,400 m of trenching in 2023 and is planning on additional drilling and trenching in 2024. Significant gold mineralisation has been identified at three main targets within a 300 m wide, 2+ km long, pervasively altered structural corridor defining a potentially large mesothermal gold system. Kobo offers investors the exciting combination of high-quality gold prospects led by an experienced leadership team with in-country experience.

Exploits Discovery's Jeff

Swinoga on Securing Competitive Assets in the Newfoundland Gold Region

written by InvestorNews | March 19, 2024

In an engaging interview at PDAC 2024 with Tracy Weslosky of InvestorNews, Jeff Swinoga, the President, CEO, and Director of [Exploits Discovery Corp.](#) (CSE: NFLD | OTCQX: NFLDF), shares insights into the company's strategic positioning and future prospects in the Newfoundland gold sector. Swinoga emphasizes the value of their holdings, stating, "We've got a very strategic claim called Bullseye, and in the last year, there's been 5 gold discoveries just South of our Bullseye property." This remark underscores the significant potential of their assets in a region that's rapidly becoming a hotspot for gold exploration. With a dedicated local team in Gander, NL, Exploits is well-placed to capitalize on the burgeoning gold exploration scene.

The focus of Exploits Discovery Corp.'s exploration strategies and geological interests are crucial to its ambitions, particularly along the Appleton Fault Zone. By following a path similar to industry pioneers, the company's exploration efforts at the Bullseye and the larger Gazebo properties are poised to potentially redefine its prospects. Swinoga detailed the competitive edge and determination that led Exploits to secure these prime locations, showcasing the company's resourcefulness and strategic planning in the high-stakes domain of mineral exploration.

Recent developments at the company, especially the promising results from the expanded till sampling program at the Gazebo South property, highlight the potential for significant gold

mineralization along the Appleton Fault Zone. This advancement solidifies the northward extension of gold zones, contributing to an optimistic outlook for Exploits Discovery Corp. With upcoming assay results from the Bullseye property and the plan for further exploration, Exploits is strategically positioned to explore the geological riches of its claims, marking a potential trajectory for its future in Newfoundland's gold exploration landscape.

About Exploits Discovery Corp.

Exploits is a Canadian mineral exploration company focused on the acquisition and development of mineral projects in Newfoundland and Labrador, Canada. The Company is focused on discovering high-grade structurally hosted epizonal gold similar to New Found Gold's success along the Appleton Fault zone and parallel structures within the Exploits Subzone.

Exploits is utilizing its experienced, talented local team and geologic understanding with the vision to become one of the most successful explorers in Canada.

Troilus Gold's Rise: Unveiling One of North America's Premier Undeveloped Gold-Copper Resources

written by InvestorNews | March 19, 2024

Wars, inflation, possible recessions, and a volatile world are all factors in 2023 that are helping to support the price of gold. Looking at the chart below gold continues to perform well over a long period of time.

Kobo Resources' Paul Sarjeant on the significant potential for gold discovery at the Kossou Gold Project in West

Africa

written by InvestorNews | March 19, 2024

In a recent InvestorNews interview with host Tracy Weslosky, Paul Sarjeant, President, COO, and Director of [Kobo Resources Inc.](#) (TSXV: KRI), shared [exciting developments](#) about their ongoing exploration program at the Kossou Gold Project located in one of West Africa's most prolific gold districts.

Paul explained that Kobo has been aggressive in advancing its trenching program, with a keen focus on the newly discovered Kadie Zone, situated just west of the Jagger Zone. Kobo has reported impressive results from both the zones, confirming significant gold soil anomalies at the Kadie Zone and strong gold mineralisation over a strike length in excess of 1.4 kilometres at the Jagger Zone. Paul further added that the Kadie Zone has been elevated to drill-ready status as part the Company's exploration strategy.

Citing their proximity to an existing gold mine, Paul discussed Kossou Gold Project's significant potential for gold discovery, its strategic location, and existing infrastructure. As Kobo Resources continues its trenching program and prepares for drilling, Paul also provides an update on the timeline for a resource estimate on the project.

Romios Gold continues to get gold, copper & silver showings at their two Nevada Projects, but can they hit the jackpot?

written by InvestorNews | March 19, 2024

Romios Gold Resources Inc.'s (TSXV: RG | OTCQB: RMI0F) ("Romios") focus is on gold, copper and silver exploration in North America. Romios has a 100% interest in five properties in northwestern Ontario, Canada but their recent focus has been on their assets in Nevada, USA. Therefore today's article will give an update on Romios' two projects in Nevada, the Kinkaid Gold-Copper-Silver Project and the Scossa Gold Project.

Paul Sarjeant on Kobo Resources' recent drilling achievements at the Kossou Gold Project in West Africa

written by InvestorNews | March 19, 2024

In a recent interview with InvestorNews host Tracy Weslosky, Paul Sarjeant, President, COO, and Director of [Kobo Resources](#)

[Inc.](#) (TSXV: KRI), provides a compelling update on the company's recent [drilling achievements](#) at the Kossou Gold Project in Cote d'Ivoire, West Africa. Paul revealed that Kobo drilled nearly 6,000 meters in under five weeks with assay results confirming strong gold mineralization.

Paul Sarjeant highlighted the success of their drilling program in the Jagger Zone which continues to show promising signs of gold mineralization, with high-grade zones boasting 10-15 grams of gold per ton. They've also made noteworthy progress in the Road Cut Zone, confirming significant gold mineralization with consistent grades.

Another key highlight discussed in the interview was the discovery of the Kadie Zone on which Kobo has identified strong geochemical anomalies with results of up to 6,000 parts per billion gold in soil. Paul said that plans are already in motion to explore this area further. To access the complete interview, [click here](#)

Kobo Resources Strikes Gold in Côte d'Ivoire

written by InvestorNews | March 19, 2024

West Africa's gold-rich terrains have long enticed mining aficionados from across the globe. Positioned at the forefront of the latest gold rush in this region is Kobo Resources Inc. (TSXV: KRI), a burgeoning exploration force that has recently unveiled some glittering discoveries in Côte d'Ivoire.

Kobo Resources' Paul Sarjeant

on the discovery of a promising gold mine opportunity adjacent to an operational one in West Africa

written by InvestorNews | March 19, 2024

In a recent InvestorIntel interview, Tracy Weslosky spoke with Paul Sarjeant, the President, COO, and Director of Kobo Resources Inc. (TSXV: KRI) about insights into the exciting potential of Kobo's mining project in West Africa. Located approximately 20 km northwest of the capital city of Yamoussoukro and directly adjacent to one of the region's largest gold mines with established processing facilities, the excitement centers around Kobo's discovery of an underexplored and promising gold mine opportunity adjacent to an operational one in Côte d'Ivoire – Kobo's 100%-owned Kossou Gold Project.

The market appears quite optimistic about Kobo Resources maiden drill program and gold

written by InvestorNews | March 19, 2024

Kobo is a newly listed (shares commenced trading on March 31, 2023) junior Canadian exploration and mining development company

focused on acquiring, exploring and developing gold property assets located primarily in Côte d'Ivoire, one of West Africa's most prolific and developing gold districts. This includes the Kossou Permit, which forms the basis of the Kossou Gold Project and the Kotobi Permit. The 100%-owned Kossou Gold Project is located approximately 20 km northwest of the capital city of Yamoussoukro and is directly adjacent to one of the region's largest gold mines with established processing facilities. The Company plans to unlock the potential size and scale of Kossou within a 9+ km strike length of highly prospective gold in soil geochemical anomalies with an immediate goal of defining significant near surface zones of gold mineralisation.

Pieter Bakker of Vatic Ventures Provides Insights on its Gold & Critical Minerals Projects in Canada

written by InvestorNews | March 19, 2024

In this InvestorIntel interview, Tracy Weslosky talks with [Vatic Ventures Corp.](#)'s (TSXV: VCV | OTCQB: VCVVF) CFO Pieter Bakker about Vatic's portfolio of gold and critical minerals projects in Canada. Pieter says that they are currently focused on their gold exploration property known as the Hansen prospect located in the Chibougamau area of northern Quebec but the company also has a critical minerals project in New Brunswick that includes copper, molybdenum, nickel, platinum group elements (PGE), rare earths (REE), tin, and tungsten.

The Hansen property is located in the northeast corner of the Matagami-Chibougamau Greenstone Belt and previous work delineated a mineralized zone 15 meters (m) wide over a strike length of 250m.

With an [I.P. geophysical survey](#) set to commence soon, followed by drilling on the Hansen Gold Project later on in the year, Pieter discusses that previous work on the project has shown exceptional gold values, including surface grab samples of 33.25 grams per tonne (g/t) gold (Au) and 34.92 g/t Au, and drill intersections of 12.8 g/t Au over 1.05m, 7.94 g/t Au over 1.05m, and 75.29 g/t Au over 0.3m.

He remarks that the Hansen prospect is located in “the most promising area for gold exploration”, according to Quebec Geological Survey.
