CBLT’S Peter Clausi on de-risking exploration projects with M&A

written by InvestorNews | March 20, 2024

In a comprehensive interview with InvestorNews host Tracy Weslosky, Peter Clausi, President, CEO & Director of CBLT Inc. (TSXV: CBLT), delved into the company’s strategic focus on mergers and acquisitions (M&A) and asset development across the mineral exploration sector. Clausi articulated CBLT’s pre-emptive strategy to bolster its financial position by liquidating assets ahead of anticipated market downturns, ensuring the company remains financially robust with “cash in the bank.” This prudent financial management, according to Clausi, positions CBLT advantageously during both prosperous and challenging times, enabling continued exploration and project development activities.

Clausi emphasized CBLT’s unique approach to growth, stating, “In our belief, you can make more money with the pen than with the drill bit at less risk,” highlighting the company’s success in maximizing value through strategic M&A activities rather than solely relying on direct exploration. This philosophy has allowed CBLT to maintain a lean share structure over 15 years, with only 75 million shares issued, a testament to their efficient capital management and strategic project acquisitions.

The interview further shed light on CBLT’s diverse portfolio, ranging from gold and cobalt to lithium and copper properties across Canada, each selected for its potential to address future market demands. Notably, Clausi spotlighted the acquisition and planned development of the historic Falcon Gold Mine in Sudbury, illustrating CBLT’s knack for identifying and revitalizing

underexplored or forgotten assets. This property, alongside others such as Michaela in British Columbia and a lithium property adjacent to the Tanco Mine in Manitoba, underscores CBLT's strategic foresight in project selection and development.

Adding to the company's strategic capabilities, CBLT announced the addition of James R. Atkinson, a geologist with over 40 years of experience, to its board of directors, promising to further bolster its expertise in mineral exploration and project evaluation.

Moreover, Clausi provided insights into the company's recent sale of the non-core Ryliejack asset in northern British Columbia, demonstrating CBLT's strategic asset management and focus on optimizing its portfolio for financial and operational efficiency. Throughout the interview, Clausi's narrative was one of strategic foresight, prudent financial management, and a deep understanding of the mineral exploration sector. His perspective on the critical role of copper as a technology metal, over other more transient battery metals, reflected a long-term strategic outlook on commodity investment, emphasizing the importance of adaptability and foresight in the rapidly evolving resource sector. Clausi's articulate discussion highlighted CBLT's commitment to strategic growth, value creation, and operational excellence in the exploration industry.
