Joel Freudman of TRU Precious Metals Discusses the Golden Rose Project with High Grade Gold Results

written by InvestorNews | March 29, 2023

In this InvestorIntel interview during PDAC 2023, Tracy Weslosky talks with Joel Freudman, Co-Founder, CEO and Director of TRU Precious Metals Corp. (TSXV: TRU | OTCQB: TRUIF). Joel discusses recent news including the new discovery of high-grade gold in channel samplings at their Golden Rose Project. He also mentions that they also recently found a "high probability copper target" also on the Golden Rose Project. This now means the Project has both gold and copper potential.

Joel discusses TRU's management team and board including two new hires that add further depth and experience to the team. He says TRU has had a busy PDAC with lots of interest in the Company and that TRU is welcoming interest from possible M&A opportunities as well as financing opportunities.

Joel gives investors an outline of the Company's near-term plans and catalysts including structural mapping and trenching and later in the summer a drilling campaign at key targets on the Golden Rose Project.

About TRU Precious Metals Corp.

TRU (TSXV:TRU; OTCQB:TRUIF) is on a mission to build long-term shareholder value, through prudent natural resource property development and transactions. TRU is exploring for gold and copper in the highly prospective Central Newfoundland Gold Belt on its 100%-owned Golden Rose Project, originally optioned from TSX-listed Altius Minerals. Golden Rose is a regional-scale 240.25 km2 land package, including a recently-discovered 20 km district-scale structure, and an additional 45 km of strike length along the deposit-bearing Cape Ray – Valentine Lake Shear Zone, directly between Marathon Gold's Valentine Gold Project and Matador Mining's Cape Ray Gold Project. In addition, TRU has an option to acquire up to an aggregate 65% ownership interest in two claim packages covering 33.25 km2 including a 12 km strike length along the Shear Zone within Golden Rose.
