

Valeo Pharma on a significant upswing with recent Health Canada approvals

written by InvestorNews | December 14, 2020

In a new InvestorIntel interview Peter Clausi speaks with Steve Saviuk, CEO of [Valeo Pharma Inc.](#) (CSE: VPH | OTCQB: VPHIF), about receiving Health Canada's approval for its anti-coagulant Redesca™ and the use of some its products in battling coronavirus.

"We are in the middle of a significant upswing and growth trajectory," Steve told Peter, with Valeo's stock up over 300% in 12 months. Founded in 2003, Valeo Pharma is a pharmaceutical company dedicated to the commercialization of innovative prescription products in Canada with a focus on neurodegenerative diseases, oncology and hospital specialty products.

Steve discusses Health Canada's recent approval of Redesca™ and Redesca Hp™ low molecular weight heparin (LMWH) biosimilars, which belong to a class of anti-coagulant drugs very much in demand and are now increasingly used as a first line of defense tool in the fight against the symptoms of COVID-19. Steve added that the Canadian LMWH market is in excess of \$200 million annually and the Valeo anticipates being able to capture a significant market share with its growing portfolio of hospital drug products.

As to future growth and valuation, Steve quoted Wayne Gretzky: "It's not where the puck is, it's where the puck is going, and it's the same thing with valuation. You have to look at where we're going to be in a year or two, and that's what is truly

exciting.”
