

Invitation for Trump to join Lifton on the Technology Metals Show to discuss the Critical Materials Executive Order issued yesterday

written by Tracy Weslosky | October 1, 2020

This morning I raced through Fallon, Kimmel, Corden and Colbert as I do every morning with a cup of coffee. The idea? Hit the ground running having enjoyed the late-night talk show hosts translations of the news events from the day before...

Henry Weingarten doesn't understand why I cannot commit to a [follow up interview](#), he's right – we need one. After all, in our last interview he forecasted everything from who will win the Presidential election to a bullish graphite, gold and media market this Fall. Undoubtedly we would all like to know what percentage of forecasts he is making on our capital markets that are right and which ones are wrong. Alright, we will get this done and live by next week.

Reviewing the emails, Russell Fryer of [Critical Metals PLC](#) (LON: CRTM) alerted many of this AM to the [Executive Order on Addressing the Threat to the Domestic Supply Chain from Reliance on Critical Minerals from Foreign Adversaries](#) that was published on the White House site yesterday.

Russell adds in his email: “The use of the term ‘foreign adversaries’ is quite a strong phrase, designed and inserted to call out China...” He then adds his summary points of interest:

1. the United States develops secure critical minerals supply chains that do not depend on resources or processing from foreign adversaries. (i.e. China)
2. the United States develops globally competitive, substantial, and resilient domestic commercial supply chain capabilities for critical minerals mining and processing.
3. reduce the vulnerability of the United States to the disruption of critical mineral supply chains through cooperation and coordination with partners and allies, including the private sector
4. build resilient critical mineral supply chains, including through initiatives to help allies build reliable critical mineral supply chains within their own territories

OK, thanks Russell and kudos on listing Critical Metals PLC in London earlier this week, we are all watching to see what you do next.

Now Trump? While the content of this Executive Order is unquestionably of great interest to me and my associates in this sector, why wasn't Trump busy investing in how to clean up his post debate mess is of great interest to me. Experts tell me that the positive he is doing for critical materials will continue no matter who becomes President this Fall, but it does makes it hard to communicate what I deem to be a very positive action on his behalf when he is **not** behaving like a gentleman.

For the record, talkative is fine. After all, rare earths' experts are exceptionally talkative....

In fact, I was speaking with Jack Lifton earlier this last week and asked him about a new editorial candidate for InvestorIntel to do a regular column on our sector, and his response to one candidate was "he's good, but if you ask him the time, he will give you the history of how time was created."

My point? Give us Trump for the Technology Metals Show and I will have no challenge being the moderator with Jack Lifton as I am used to strong driven communicators with passionate positions on why we should all be buying their stock. On that note I would like to personally extend an invitation for President Trump to be on the Technology Metals Show and have Jack Lifton interview him on this Executive Order?

Now why will this work? It will work, because we are all on the same side here...when it comes to our North American issues around sustainability, we all agree. No one should ever be solely reliant on one nation for all of our Technology Metals.

See a theme here?

Before I change the point here, yes, I do plan on asking Ron Wortel to write a piece on this order ASAP. Why Ron? Well in a conversation with Ron yesterday in discussions about him taking on a regular moderator role of a critical materials editorial board (this clever idea was suggested to me by Jeff Green and his team at J.A. Green & Company last week). Ron was discussing his history in rare earths, and you know what? I think he can do it and do it well. Ron's style is understated and many of us enjoy reading well done text that is written by knowledgeable professionals that understand the business...you will of course tell me what you think – you always do.

Alright, I am running to go assist Raj Shah on putting together a Top 20 InvestorChannel Watchlist of graphite companies today. Would like to thank Julie Pacquet of [Nouveau Monde Graphite Inc.](#) (TSXV: NOU | OTCQX: NMGRF) for being the catalyst of this idea.

On a final note I am going to start calling out 'flags on the field' of the capital markets and today I would like to highlight an analyst who did what I deemed a 'smackdown' on another rare earths company in an eblast I received yesterday.

Let me add, I have grown weary of advising him that his content is not my friend and have been unsuccessfully and getting off of his darn list, but hey this is simple.

How can you call out other critical material company when you sit on Boards and are presently raising funds for your own company (in the same sector of course)? When are we as investors simply going to build a wall for you and insist that you not climb over it? Consider this my brick, and as I have told you before – why can you not just market yourself without tearing someone else down, especially when you do not know what is going on.

It seems we have analysts that could use a brush up on professional behavior as well.

Enjoy your day, we will get Mr Weingarten set up for an interview, finish the InvestorChannel Graphite Watchlist, and attempt to get the news release written on the new Investor Talks video meeting series and in your inbox by Friday afternoon.

David Morgan on why the gold and silver ride is not over yet

written by InvestorNews | October 1, 2020

InvestorIntel's Tracy Weslosky asks David Morgan, Founder &

Owner of [The Morgan Report](#), if it is too late to invest in the gold and silver market. “From my work and many others we are in the last leg of this major move.” David said. “The greatest price appreciation takes place in the last leg, but the last leg is usually short in duration. 90% of the move comes in the last 10% of the time.”

“We are in a monetary conundrum,” David told Tracy. “We are printing our way out of a mess that can’t be printed out of. So, the metals are going to react to that in a very significant way, probably in a very short duration. Juniors are the last to participate in any cycle,” David added. “I think there is so much pressure in the precious metals right now, juniors may participate a little earlier than they normally do.”

Last month InvestorIntel announced its partnership with [InvestorChannel.com](#), a data-driven fintech company that is focused on using the latest in artificial intelligence (AI) and other analytics technologies to develop a platform that produces timely insights into companies and industries listed on the capital markets. InvestorChannel publishes a daily [Silver Stocks Watchlist](#) Update video which includes the Top 5 Performers of the Day and a performance review of the companies InvestorChannel is following in the sector, carefully selected by silver expert David Morgan of The Morgan Report.

The Perfect Market Storm: Critical Materials, Cleantech and COVID-19

written by Tracy Weslosky | October 1, 2020

There seems to be a misguided notion (with some) that isolation means we have more time to waste. Far from reality, I am certain that many of you, like me are looking at your inbox wondering where or how to wade into the depth of quality deals and opportunities upon us...

Would like to kick your morning coffee off with a special nod to our longstanding friends from [Avalon Advanced Materials Inc.](#) (TSX: AVL | OTCQB: AVLNF) whose \$AVL soared 50% yesterday. We have been supporters of #Avalon since Don Bubar first did an interview with me in 2009 (with Jack Lifton) and introduced me to rare earths. And indeed, there is news flow in the rare earths a-n-d throughout the critical materials sector that is literally ricocheting from source-to-source online...

[How to follow?](#)

Jack Lifton, Clint Adam Smyth and I just launched the [TechnologyMetals.com](#) site to manage the influx of critical materials' news (and experts) we are communicating with regularly. Jack's interview with Dr. David Dreisinger on [Search Minerals Inc.](#) (TSXV: SMY) last week was purely outstanding (in my opinion) as he describes David as "the leading authority on solvent extraction process". This is a hot topic that we touch on in our weekly update that we just started...[click here to access a preview](#)

And associated technologies relating to cleantech? We saw [Exro](#)

[Technologies Inc.](#) (CSE: XRO | OTCQB: EXROF) stock move up 30% yesterday! Interviewing CEO Sue Ozdemir on how Exro makes “electric motors faster, stronger and greener” for InvestorIntel on Wednesday: we will get this up live as fast as we can!

Uranium continues to maintain a much-deserved interest, let me point you in the right direction for a quick update – Matt Bohlsen’s piece from last week titled, [The DoE’s plan to rebuild the uranium sector and ‘pull America’s nuclear industrial base back from the brink of collapse’...](#) reinforces the sustainability themes we are touting on the Technology Metals Show. Arranging interviews as we speak with Mark Chalmers of [Energy Fuels Inc.](#) (NYSE: UUUU | TSX: EFR) and Jeff Klenda of [Ur-Energy Inc.](#) (NYSE: URG | TSX: URE) as they “stand to be the major beneficiaries, especially given they started the whole S232 petition back in January 2018” you should see those live on InvestorIntel next week.

And yes, we are following the biotech and life sciences market. If you subscribe to our AI driven market updates on InvestorChannel.com – you can catch the 20 companies, we are following in the race for vaccinations...[click here](#)

Speaking of AI technology, we would like to ensure that you are aware of the news that was put out by [Predictmedix Inc.](#) (CSE: PMED | OTCQB: PMEDF) yesterday titled – [Predictmedix Files Patent for Mass Screening for Infectious Diseases Such As #COVID19](#)

1 YR stock Chart for Predictmedix Inc. (CSE: PMED) – Source: TD Waterhouse

And speaking on the war against the COVID-19, [StageZero Life Sciences Ltd.](#) (TSX: SZLS) put out the following news on April

20th [StageZero Life Sciences Initiates Testing for COVID-19 In the USA](#)

Remember, click here to subscribe to the [InvestorChannel](#) for daily market updates on the Canadian, US and Hong Kong markets – and to follow InvestorIntel's stock watchlist for Gold, Uranium, Rare Earths and of course, COVID-19...
