

Gold company Presidents and CEOs talk about the return of gold investments and investors

written by InvestorNews | June 27, 2022

In this InvestorIntel PDAC 2022 Panel on “In Search of Gold – The Gold Market”, host Stephen Lautens discusses the increasingly positive market sentiment towards junior gold explorers and gold as an investment with a panel of gold experts including [MAS Gold Corp.](#)’s (TSXV: MAS) CEO and Director Jim Engdahl, [TRU Precious Metals Corp.](#)’s (TSXV: TRU | OTCQB: TRUIF) Co-Founder, CEO and Director Joel Freudman, [Volcanic Gold Mines Inc.](#)’s (TSXV: VG) Founder, Director, President and CEO Simon Ridgway, and [West Red Lake Gold Mines Inc.](#)’s (CSE: RLG | OTCQB: RLGMF) President and Director John Kontak.

In the video, which can also be viewed in full on the InvestorIntel YouTube channel ([click here](#)), the panel discusses the continuing investor interest in gold in turbulent markets. Simon Ridgway of Volcanic Gold says that “I do think that there’s a pretty good upside over the next five months for gold. When the big markets fail as they are right now then people usually turn to gold as a safe haven.” TRU Precious Metals CEO Joel Freudman agrees: “If you look at March 2020, gold got liquidated along with everything else but subsequently gold and precious metals like silver really took off following the crash, so to your point, I think a similar pattern wouldn’t be unexpected.”

The panel also discusses a new, younger generation of investors who are returning to gold following the rise and fast fall of investments like cannabis and crypto.

About MAS Gold Corp.

MAS Gold Corp. is a Canadian mineral exploration company focused on exploration projects in the prospective La Ronge Greenstone Belt of Saskatchewan. In the belt, MAS Gold Corp. operates the Greywacke, North Lake and Point advanced gold projects, each hosting drill-intercepted zones of gold mineralization. MAS Gold's NI 43-101 Technical Report of June 1, 2016 concerning the Greywacke deposit is available on SEDAR and on MAS Gold's website: www.masgoldcorp.com.

About TRU Precious Metals Corp.

TRU (TSXV:TRU) (OTCQB: TRUIF) (FSE: 706) is on a mission to build long-term shareholder value, through prudent natural resource property development and transactions. Currently, TRU is exploring for gold and copper in the highly prospective Central Newfoundland Gold Belt and has an option with TSX-listed Altius Minerals to purchase 100% of the [Golden Rose Project](#).

Golden Rose is a regional-scale 236 km² land package, including a newly discovered 20 km district-scale structure and an additional 45 km of strike length along the deposit-bearing Cape Ray – Valentine Lake Shear Zone, directly between Marathon Gold's Valentine Gold Project and Matador Mining's Cape Ray Gold Project.

About West Red Lake Gold Mines Inc.

West Red Lake Gold Mines is a Toronto-based minerals exploration company focused on gold exploration and development in the prolific Red Lake Gold District of Northwest Ontario, Canada. The Red Lake Gold District is host to some of the richest gold deposits in the world and has produced 30 million ounces of gold from high grade zones. The Company has assembled a significant property position totalling 3,100 hectares in west Red Lake (the "West Red Lake Project") which contains three former gold mines located 15 km west of the Red Lake mine complex. The Mount Jamie Mine and Red Summit Mine properties are 100% owned by the Company and the Rowan Mine property is held in a 69% – 31% joint venture with Evolution Mining Limited. The West Red Lake Project property covers a 12 km strike length along the Pipestone Bay St Paul Deformation Zone and the Company is continuing to explore the property both along strike and to depth.

Jim Engdahl on MAS Gold's Saskatchewan advantage

written by InvestorNews | June 27, 2022

In this InvestorIntel interview with host Tracy Weslosky, [MAS Gold Corp.](#)'s (TSXV: MAS) CEO and Director Jim Engdahl talks about the competitive advantages of Saskatchewan for gold exploration.

In the interview, which can also be viewed on the InvestorIntel YouTube channel ([click here to subscribe](#)), Jim talks about MAS Gold's significant land position in Saskatchewan's highly prospective La Ronge Gold Belt. Ranked as one of the best mining jurisdictions in the world, Jim says that Saskatchewan has well-developed infrastructure and still remains underexplored for gold. Touching upon the prevailing market uncertainties and higher gold prices, Jim explains why junior gold miners have become "exceptionally attractive," especially those in good jurisdictions.

About MAS Gold Corp.

MAS Gold Corp. is a Canadian mineral exploration company focused on gold exploration projects in the prospective La Ronge Gold Belt of Saskatchewan. MAS Gold operates four properties in the belt, including the Preview-North, Greywacke Lake, Elizabeth Lake and Henry Lake Properties that extend along segments totaling roughly 60 kilometres of the geologically prospective La Ronge, Kiseeynew and Glennie Domains that make up

the La Ronge Gold Belt.

MAS Gold's current projects include the North Lake, Greywacke North, Bakos (Contact Lake) and Point gold deposits and the historically defined Elizabeth Lake copper-gold volcanic-hosted massive sulphide deposit within four properties totalling 34,703.4 hectares (85,753.8 acres).

The North Lake deposit located at the Preview-North Property is estimated to contain an Inferred Mineral Resource of 18,100,000 t grading 0.85 g/t Au, hence 494,000 contained ounces of gold (Godden, S, Thomas, D. Tupper, D. *Technical Report on the Mineral Resource Updates, North Lake and Greywacke North Gold Projects, La Ronge Gold Belt, Saskatchewan, Canada.*; effective date December 1, 2021)*. The Technical Report about the updated Mineral Resource estimate was filed on SEDAR January, 12, 2022.

The Greywacke North deposit, which hosts multiple known stratabound, high-grade gold-bearing zones, has an updated, combined open pit and underground Indicated Mineral Resource of 645,000 t averaging 4.90 g/t Au for 101,000 insitu ounces of gold (600,000 t at 4.89 g/t Au, and 45,000t at 5.03 g/t Au, respectively), plus a combined open pit and underground Inferred Mineral Resource of 410,000 t averaging 4.12 g/t Au for 55,000 insitu ounces of gold (35,000 t at 1.97 g/t Au, and 375,000 t at 4.33 g/t Au, respectively). The Indicated and Inferred Mineral Resources were estimated using open pit and underground cut-off grades of 0.65 g/t Au and 1.75 g/t Au, respectively (Godden, S, Thomas, D. Tupper, D. *Technical Report on the Mineral Resource Updates, North Lake and Greywacke North Gold Projects, La Ronge Gold Belt, Saskatchewan, Canada.*; effective date December 1, 2021). The Technical Report about the updated Mineral Resource estimate was filed on SEDAR January 12, 2022.

Jim Engdahl on MAS Gold's initiative to gain control of the La Ronge Gold Belt of Saskatchewan

written by InvestorNews | June 27, 2022

In a recent InvestorIntel interview, Tracy Weslosky interviews [MAS Gold Corp.](#)'s (TSXV: MAS) CEO and Director Jim Engdahl about Mas Gold's initiative to gain control of the prospective La Ronge Gold Belt of Saskatchewan.

Congratulating Jim on the Comstock Metals Ltd and MAS Gold Corp. complete sale of preview SW Property on March 31, 2022 ([click here](#)), they also discuss the recent completion of drilling on their 100% owned North Lake Deposit on March 08, 2022 ([click here](#)).

With over one million ounces of historical resources, [click here](#) to view the entire interview.

About MAS Gold Corp.

Mas Gold's Jim Engdahl on the gold market and the strong competitive advantage of having a deposit in Saskatchewan

written by InvestorNews | June 27, 2022

In a recent InvestorIntel interview, Tracy Weslosky spoke with Jim Engdahl, CEO and Director of [MAS Gold Corp.](#) (TSXV: MAS) about the recent [drill results](#) from MAS Gold's North Lake gold deposit and about the economics of gold exploration companies at the current gold price.

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Jim Engdahl said that the North Lake gold deposit is located amongst six other former gold producing mines and that the drill result is likely to increase the deposit's resource calculation significantly. He went on to say that the deposit widens and gets higher grades as it's drilled deeper and explained how MAS Gold is going to be one of the next gold producing companies in Saskatchewan.

About MAS Gold Corp.

MAS Gold Corp. is a Canadian mineral exploration company focused on exploration projects in the prospective La Ronge Gold Belt of Saskatchewan. In the belt, MAS Gold Corp. operates four properties totaling 33, 843 hectares (83, 628 acres), including the Greywacke Lake, Preview-North, Elizabeth Lake and Henry Lake Properties extending along a total of roughly 60 kilometres of the geologically prospective La Ronge, Kiseynew and Glennie Domains that make up the La Ronge Gold Belt.

MAS Gold's holdings include the Greywacke North, North Lake and Point gold deposits and the historically defined Elizabeth Lake copper-gold volcanic-hosted massive sulphide deposit.

The Greywacke North deposit, which hosts multiple known stratabound, high-grade gold-bearing zones, has an estimated 255,500 tonnes at 9.92 g/t Au (cut-off grade of 5 grams gold/tonne) for 81,500 ounces of gold, plus an Inferred Mineral Resource of an estimated 59,130 tonnes at 7.42 g/t Au for 14,100 ounces of gold (NI 43-101 Technical Report, June 1, 2016).

The North Lake deposit located at Preview North Property is estimated to contain an Inferred Mineral Resource of 14,110,000 t grading 0.92 g/t Au, hence 417,000 contained ounces of gold (NI 43-101 Technical Report, April 10, 2020).
