

# Dev Randhawa on Fission 3.0's private placement and the uranium market

written by InvestorNews | December 10, 2021

In a recent InvestorIntel interview, Peter Clausi spoke with Dev Randhawa, Chairman and CEO of [Fission 3.0 Corp.](#) (TSXV: FUU | OTCQB: FISOF) about [the upsizing](#) of Fission 3.0's recently announced private placement due to significant investor demand and about why "there could be a massive move in uranium next year."

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Dev Randhawa went on to talk about the current uranium market and why uranium is essential to achieve net zero-emission goals. He also explained how the new Sprott Physical Uranium Trust and billionaires Warren Buffett and Bill Gates backing a \$4 billion nuclear power plant in Wyoming are indications that the uranium sector is on the rise. Led by an experienced team that has found two uranium deposits before, Randhawa said that Fission 3.0 is close to making a major discovery at its Patterson Lake North project.

## About Fission 3.0 Corp.

Fission 3.0 Corp. is a uranium project generator and exploration company, focusing on projects in the Athabasca Basin, home to some of the world's largest high-grade uranium discoveries. Fission 3.0 currently has 16 projects in the Athabasca Basin region. Several of Fission 3.0's projects are near large uranium

discoveries, including Arrow, Triple R and Hurricane deposits. Fission 3.0 has recently completed an \$8 million funding with Red Cloud Securities Inc. and is currently planning a winter exploration/drill program on its PLN project. It is also entertaining JV partners with some of its other projects.

## **Dev Randhawa on the uranium market, and Fission 3.0 staking two new properties in the Athabasca Basin**

written by InvestorNews | December 10, 2021

In a recent InvestorIntel interview, Tracy Weslosky spoke with Dev Randhawa, Chairman and CEO of [Fission 3.0 Corp.](https://www.fission3.com) (TSXV: FUU | OTCQB: FISOF) about [staking two new properties](#) in the Athabasca Basin, which have the potential for near-surface high-grade uranium deposits

In this InvestorIntel interview, which may also be viewed on YouTube ([click here to subscribe to the InvestorIntel Channel](#)), Dev discusses Fission 3.0's recent raises and how these funds will be directed. Tracy inquires about a wide range of increasing interest in uranium from a wide spectrum of investors that range from ESG funds to millennials in uranium and Dev provides compelling reasons why this interest will not only

continue but grow. They discuss the Sprott Physical Uranium Trust, which invests and holds substantially all of its assets in uranium in the form of U308, and the impact on the uranium spot price.
